Contested War Memories Philip A. Seaton, 2007-03-12 Japan's Contested War Memories is an important and significant book that explores the struggles within contemporary Japanese society to come to terms with Second World War history Focusing particularly on 1972 onwards the period starts with the normalization of relations with China and the return of Okinawa to Japan in 1972 and ends with the sixtieth anniversary commemorations Analyzing the variety of ways in which the Japanese people narrate contest and interpret the past the book is also a major critique of the way the subject has been treated in much of the English language Philip Seaton concludes that war history in Japan today is more divisive and widely argued over than in any of the other major Second World War combatant nations Providing a sharp contrast to the many orthodox statements about Japanese ignorance amnesia and denial about the war this is an engaging and illuminating study that will appeal to scholars and students of Japanese history politics cultural studies society and memory theory The Theory of Japan's National Polity and Pure Socialism Ikki Kita, 2025-06-11 This is the first English translation of Ikki Kita's The Theory of Japan's National Polity and Pure Socialism 1906 also known as Kokutairon and Pure Socialism Volume 3 has all the chapters from Part V The full text is an analysis and commentary on socialism It focuses on Ikki Kita's theories of economic justice social democracy and the relationship between socialism and the Japanese national polity **In the**

Shadow of Empire Alicia Volk, 2025-05-19 A pioneering look at an immensely creative period in Japanese art that developed amid the Cold War Alicia Volk brings to light a significant body of postwar Japanese art exploring how it accommodated and resisted the workings of the American empire during the early Cold War Volk's groundbreaking account presents the points of view of Japanese artists and their audiences under American occupation and amid the ruins of war Each chapter reveals how artists embraced new roles for art in the public sphere at times by enacting radical critiques of established institutions values and practices and situates a range of compelling art objects in their intersecting artistic and political worlds Centering on the diverse and divisive terrain of Japanese art between 1945 and 1952 In the Shadow of Empire creates a fluid map of

relationality that brings multiple Cold War spheres into dialogue stretching beyond US occupied Japan to art from China Europe the Soviet Union and the United States and demonstrates the rich potential of this transnational site of artmaking for rethinking the history of Japanese and global postwar art Japanese War Orphans Jiaxin Zhong,2021-11-25 After Japan's defeat in August 1945 some Japanese children were abandoned in China and raised by Chinese foster parents They were unable to return to Japan even during the mass repatriation carried out by the Japanese government in the 1950s Most of them returned to Japan in the 1980s They are called Japanese war orphans They are victims of the Sino Japanese War and have been exploited and abandoned by the Japanese government They are also border people who have lived in the interstices between two nations China and Japan and are migrants who have exploited the gap in economic development between Japan and China to seek individual happiness Modern East Asia underwent drastic social change These drastic social changes affected the lives of the Japanese war orphans and their families in a variety of ways Over the years Zhong has interviewed Japanese war orphans their Chinese foster parents and Japanese volunteers The title is an interview based sociological study of the issue of Japanese war orphans The first half of the Japanese war orphans lives were spent in China and the latter half in Japan It brings to the fore the dramatic personal histories of the Japanese war orphans surviving in the interstices between two nation states Through analyzing the issue of Japanese war orphans the research on the subject makes the following three points 1 the powerlessness of civilians caught up in modern warfare and the long lasting effects of modern warfare on the life histories of individuals and their families 2 the nature of the modern nation state which exploits and abandons its citizens as though they were expendable and 3 immigration as a product of modernization gaps Scholars pursuing studies in both Japanese society Chinese society and historians of the Sino Japanese war would find this an ideal read **Living for Jesus and Japan** Shibuya Hiroshi,Chiba Shin,2013-11 Uchimura Kanzo 1861 1930 was an independent original and thought provoking pioneer of Christianity in modern Japan His theological values were organically linked with his aspiration for living and practicing such evangelical ideas as prophetic existence neighborly love social justice pacifism patriotism and internationalism in the sphere of public life Uchimura's commitment to the interaction between religious thought and social life is apparent in his well known epitaph I for Japan Japan for the World the World for Christ and All for God In this interdisciplinary multi angled approach to Uchimura Kanzo the contributors shed light on the inner logic meanings and modes of interaction between the religious and social thought observable in Kanzo Contributors Andrew E Barshay Kei Chiba Shin Chiba Kyougae Lee Hiroshi Miura Tsunao Ohyama Hiroshi Shibuya Takashi Shogimen Yasuhiro Takahashi Kunichika Yagyu Japan's World Power Guibourg Delamotte,2017-11-20 Since the end of the 1960s Japan's power in the world has largely been linked to its economic successes while it has pursued a decidedly pacifist post war foreign policy Recently however there has been talk of Constitutional reform especially since the new security legislation of 2016 Coupled with the conservative tilt of the two Houses there is evidence to suggest that Japan's approach to exercising its

power could be changing Japan's World Power therefore seeks to examine the nature of Japan's power today showing how the country's influence on the global stage appears to be shifting from economic and financial to more political and military. Featuring a team of Japanese international relations experts each chapter analyses the different facets of Japanese power evaluating both its current status and the challenges which lie ahead. Ultimately however this book demonstrates that despite recent developments and changes the way in which Japan exercises its power remains decidedly different from other major powers as it continues to be guided by its pacifist identity. Providing a multi-faceted assessment of Japan's power as well as its weaknesses this book will be useful to students and scholars of Japanese Politics, Asian Foreign Policy and Asian Politics in general.

Pan-Asianism and Japan's War 1931-1945 E. Hotta, 2007-12-25 The book explores the critical importance of Pan-Asianism in Japanese imperialism. Pan-Asianism was a cultural as well as political ideology that promoted Asian unity and recognition. The focus is on Pan-Asianism as a propeller behind Japan's expansionist policies from the Manchurian Incident until the end of the Pacific War.

Targeting Civilians in War Alexander B. Downes, 2011-05-15 Accidental harm to civilians in warfare often becomes an occasion for public outrage from citizens of both the victimized and the victimizing nation. In this vitally important book on a topic of acute concern for anyone interested in military strategy, international security or human rights, Alexander B. Downes reminds readers that democratic and authoritarian governments alike will sometimes deliberately kill large numbers of civilians as a matter of military strategy. What leads governments to make such a choice? Downes examines several historical cases: British counterinsurgency tactics during the Boer War, the starvation blockade used by the Allies against Germany in World War I, Axis and Allied bombing campaigns in World War II and ethnic cleansing in the Palestine War. He concludes that governments decide to target civilian populations for two main reasons: desperation to reduce their own military casualties or avert defeat, or a desire to seize and annex enemy territory. When a state's military fortunes take a turn for the worse, he finds civilians are more likely to be declared legitimate targets to coerce the enemy state to give up. When territorial conquest and annexation are the aims of warfare, the population of the disputed land is viewed as a threat and the aggressor state may target those civilians to remove them. Democracies historically have proven especially likely to target civilians in desperate circumstances. In *Targeting Civilians in War*, Downes explores several major recent conflicts including the 1991 Persian Gulf War and the American-led invasion of Iraq in 2003. Civilian casualties occurred in each campaign but they were not the aim of military action. In these cases, Downes maintains, the achievement of quick and decisive victories against overmatched foes allowed democracies to win without abandoning their normative beliefs by intentionally targeting civilians. Whether such restraint can be guaranteed in future conflicts against more powerful adversaries is however uncertain. During times of war, democratic societies suffer tension between norms of humane conduct and pressures to win at the lowest possible costs. The painful lesson of *Targeting Civilians in War* is that when these two concerns clash, the latter usually prevails.
