Churchill's Confidant Richard Steyn, 2018-02-01 Brought together first as enemies in the Anglo Boer War and later as allies in the First World War the

remarkable and often touching friendship between Winston Churchill and Jan Smuts is a rich study in contrasts. In youth they occupied very different worlds: Churchill the rambunctious and thrusting young aristocrat; Smuts the aesthetic philosophical Cape farm boy who would go on to Cambridge. Both were men of exceptional talents and achievements, and between them the pair had to grapple with some of the twentieth century's most intractable issues, not least of which the task of restoring peace and prosperity to Europe after two of mankind's bloodiest wars. Drawing on a maze of archival and secondary sources including letters, telegrams, and the voluminous books written about both men, Richard Steyn presents a fascinating account of two remarkable men in war and peace: one the leader of the Empire, the other the leader of a small fractious member of that Empire who nevertheless rose to global prominence. *Honor in the Modern World* Dan Demetriou, Laurie M. Johnson, 2016-08-03 After a century-long hiatus, honor is back. Academics, pundits, and everyday citizens alike are rediscovering the importance of this ancient and powerful human motive. This volume brings together some of the foremost researchers of honor to debate honor's meaning and its compatibility with liberalism, democracy, and modernity. Contributors representing philosophy, sociology, political science, history, psychology, leadership studies, and military science examine honor past to present from masculine and feminine perspectives and in North American, European, and African contexts. Topics include the role of honor in the modern military, the effects of honor on our notions of the dignity and purity of women, honor as a quality of good statesmen and citizens, honor's role in international relations and community norms, and how honor's egalitarian and elitist aspects intersect with democratic and liberal regimes. **Internationalism** Dianne L. Durante, Jennifer L. Weber, 2010 Alphabetic entries explore the key issues and events that have caused the United States to alter its insular foreign policy. *Deathly Deception* Denis Smyth, 2011-08-25 In the pre-dawn darkness of April 30, 1943, a body disguised as a Royal Marine Major washed ashore on the coast of Spain, carrying false documents indicating that the Allies were set to launch an attack on Greece rather than Sicily. Immortalized in the film *The Man Who Never Was*, Operation Mincemeat is renowned as the most spectacular episode in the annals of deception. In this accurate and in-depth retelling of the story, Denis Smyth draws on a vast collection of previously unavailable documentary sources to provide many key details overlooked in other accounts of Mincemeat. He reveals how the architects of the plan navigated a maze of medical, technical, and logistical issues to deceive the enemy at the highest strategic levels. Before planting the corpse in the Spanish coastal waters via a stealthy submarine operation, the planners not only gave their dead messenger a new military identity but also a private one as the fiancé of an attractive young woman named Pam. Nazi intelligence was fooled, falling for a ruse which ultimately saved thousands of American lives. **The Cambridge History of the Second World War: Volume 1, Fighting the War** John Ferris, Evan Mawdsley, 2017-11-23 The military events of the Second World War have been the subject of historical debate from 1945 to the present. It mattered greatly who won, and fighting was the essential determinant of victory or defeat. In Volume 1 of *The Cambridge History of the Second World War*, a team of twenty-five leading historians

offer a comprehensive and authoritative new account of the war's military and strategic history Part I examines the military cultures and strategic objectives of the eight major powers involved Part II surveys the course of the war in its key theatres across the world and assesses why one side or the other prevailed there Part III considers in a comparative way key aspects of military activity including planning intelligence and organisation of troops and material as well as guerrilla fighting and treatment of prisoners of war
