Water Brian Kennedy, 2011-09-02 Editor Brian Kennedy provides readers with a balanced view through a collection of conservative and liberal points of view on our water sources Essays include an examination of the many sources of pollution whether we are at a global crisis level for water quality and quantity and whether access to water should be a human right Readers will also evaluate the water situations in the Middle East and Africa They will learn about technology that may solve water issues and learn whether drinking bottled water hurts the environment *Ethical Water* Robert William

Sandford, 2011-08-26 Provocative passionate and populist RMB Manifestos are short and concise non fiction books of literary

critical and cultural studies Fresh water is essential to both the ever expanding human population and the ever threatened natural landscapes that surround us And yet society seems to continually ignore the need for a common sense approach to and appreciation of our freshwater resources and our consumption of this remarkable life giving substance that now exceeds its future availability This ground breaking and approachable work by two of Canada s most authoritative experts on water issues redefines our relationship with fresh water and outlines the steps we as a society will have to take if we wish to ensure the sustainability of our water supply for future generations

Taking on Water Wendy J. Pabich, 2012-01-01 When Wendy Pabich received a monthly water bill for 30 000 gallons for a household of two people and one dog she was chagrined After all she is an expert on sustainable water use So she set out to make a change Taking on Water is the story of the author s personal quest to extract and implement from a dizzying soup of data and analysis day to day solutions to reduce water use in her life She sets out to examine the water footprint of the products she consumes process her own wastewater onsite revamp the water and energy systems in her home and make appropriate choices in order to swim the swim Part memoir part investigation part solution manual the book is filled with ruminations on philosophy science facts figures and personal behavioral insights metrics both serious and humorous to track progress and guidelines for the general public for making small or perhaps monumental but important changes in their own lives Told with humor and grace Taking on Water offers a raw account of how deep we need to dig to change our wasteful ways

Water and Energy Gustaf Olsson, 2015-06-14 Rapid and important developments in the area of energy water nexus over the last two to three years have been significant This new edition of Water and Energy Threats and Opportunities is timely and continues to highlight the inextricable link between water and energy providing an up to date overview of the subject with helpful detailed summaries of the technical literature Water and Energy has been up dated throughout and major changes are new chapters on global warming and fossil fuels including shale gas and fracking the consequences of the Deepwater Horizon accident in the Mexican Gulf and the Niger Delta oil spills new developments in hydropower and continued competition between food water and energy Water and Energy Threats and Opportunities 2e creates an awareness of the important couplings between water and energy It shows how energy is used in all the various water cycle operations and demonstrates how water is used and misused in all kinds of energy production and generation Population increase climate change and an increasing competition between food and fuel production create enormous pressures on both water and energy availability Since there is no replacement for water water security looks more crucial than energy security This is true not only in developing countries but also in the most advanced countries For example the western parts of the USA suffer from water scarcity that provides a real security threat Part One of the book describes the water energy nexus the conflicts and competitions and the couplings between water security energy security and food security Part Two captures how climate change population increase and the growing food demand will have major impact on water availability in many countries in the world Part Three describes water for energy and how

energy production and conversion depend on water availability As a consequence all planning has to take both water and energy into consideration The environmental including water consequences of oil and coal exploration and refining are huge in North America as well as in the rest of the world Furthermore oil leak accidents have hit America Africa Europe as well as Asia The consequences of hydropower are discussed and the competition between hydropower generation flood control and water storage is illustrated The importance of water for cooling thermal power plants is described as this was so tragically demonstrated at the Fukushima nuclear plants in 2011 Climate change will further emphasize the strong coupling between water availability and the operation of power plants Part Four analyses energy for water how water production and treatment depend on energy The book shows that a lot can be done to improve equipment develop processes and apply advanced monitoring and control to save energy for water operations Significant amounts of energy can be saved by better pumping the reduction of leakages controlled aeration in biological wastewater treatment more efficient biogas production and by improved desalination processes There are 3 PowerPoint presentations available for Water and Energy threats and opportunities 2e About the author Gustaf Olsson Professor Em in Industrial Automation Lund University Sweden Since 2006 Gustaf has been Professor Emeritus at Lund University Sweden Gustaf has devoted his research to control and automation in water systems electrical power systems and process industries From 2006 to 2008 he was part time professor in electrical power systems at Chalmers University of Technology Sweden He is guest professor at the Technical University of Malaysia UTM and at the Tsinghua University in Beijing China and he is an honorary faculty member of the Exeter University in UK Between 2005 and 2010 he was the editor in chief of the journals Water Science and Technology and Water Science and Technology Water Supply IWA Publishing From 2007 to 2010 he was a member of the IWA Board of Directors and in 2010 he received the IWA Publication Award In 2012 he was the awardee of an Honorary Doctor degree at UTM and an Honorary Membership of IWA Gustaf has guided 23 PhDs and a few hundred MSc students through their exams and has received the Lund University pedagogical award for distinguished achievements in the education The Lund University engineering students elected him as the teacher of the year He has spent extended periods as a guest professor and visiting researcher at universities and companies in the USA Australia and Japan and has been invited as a guest lecturer in 19 countries outside Sweden He has authored nine books published in English Russian German and Chinese and contributed with chapters in another 19 books as well as more than 170 scientific publications
