Sustainability and the City Lauren Curtright, Doris Bremm, 2017-07-28 Sustainability and the City Urban Poetics and Politics contributes to third generation discourse on sustainable development by considering through a humanistic lens theories and practices of sustainability in a wide range of urban cultures It demonstrates cities inextricability from discussions on sustainability because not only is the world urbanizing at an unprecedented rate but also cities are primary locations of the circulation of excess capital socioeconomic divisions and hierarchies political resistance friction between human and non human worlds and the confluence of art policy and identity formation in placemaking With essays by scholars working in a variety of fields from architecture to literature to music to sociology this collection maintains that any hope for achieving urban sustainability will require taking seriously the ways in which cities are imagined Efforts to make cities sustainable must fully incorporate the humanities because critical endeavors and creative expressions that fall within the purview of the humanities are vital to closing the conceptual gulf as well as the practical gap between human and non human conservation Even if the environmental humanities embrace cities critics must ask whether coalescing the terms sustainability and city may actually obstruct human action to combat climate change which from some angles seems impending self imposed apocalypse To examine the urban turn Sustainability and the City attends to culture Essays in the first part of the collection approach urban sustainability from various disciplinary vantage points to emphasize history ideology pedagogy and critical theory The second part of the collection analyzes urban commons on four different continents Finally the collection moves from a diverse set of interpretations of on the ground urban phenomena to a compilation of readings of sustainability in different media and genres sound art drama fiction and film set in or evocative of cities The collection carves out a place for artists and critics to help realize social justice in cities which generate remarkable power but power that is too often and too easily used destructively unfairly and wastefully despite cities unique capacities to inspire and sustain humanity

Auschwitz Chaim Zalman Katz, 2025-08-23 Between the tracks that lead to the camp and the damp alleys of an occupied Warsaw a bundle of letters becomes the most fragile and powerful of weapons Estera Lewin before being deported folds paper and promises to return inside the barracks she turns each line into resistance memories of the childhood kitchen rhymes that serve as code practical instructions hidden in trembling handwriting Outside Jakub Lewin incorporates those letters into the body of the Resistance he reads them between missions risks routes recruits couriers and turns verses into courage The correspondence begins to dictate decisions that cost lives and to keep alive a world the camp tries to erase The narrative intertwines times and spaces Estera's epistolary intimacy fragmented by hunger and cold and Jakub's operational urgency in the streets and podw rka of Warsaw in a novel where memory is a plan of action Each letter is a reliquary each hiding place hollow buttons boards with a loose nail balls of wool a ritual with its own rules each rhyme a

code each failure a consequence Secondary characters Marek Helena Hana Maria Julek and the boy Szymon appear as nodes in a network of solidarity that defies historical brutality Tension rises between active waiting and the risk of exposure aborted deliveries interceptions and moral choices that force the reader to confront the price of loyalty More than a historical novel Auschwitz The Last Letter is a meditation on writing as an act of survival and on the legacy that spans generations With lyrical prose and documentary rigor the book reconstructs the fades of the kamienice the gravel of the Appellplatz the mill wheels on the Wis a and the rough interior of the barracks with sensory detail and ethical responsibility Promise loss and possibility run through the pages to an ending that rejects spectacle and favors the fidelity of testimony a saved letter a rhyme that survives memory that refuses to be consumed For readers seeking historical intimacy and moral feeling this is a story of love courage and resistance that will not settle for being merely a memory *Unsafe Haven* Mayer
