## **Water From Scarce Resource To National Asset:**

**Water**, 2012      **Water** Wen Yang ((Director of Corporate Development, VITAL, Singapore)), Jin Yi Kuang, 2020

Global Water Security World Water Council, 2018-02-02 This book highlights the relationship between the water sector and various other sectors in order to establish an improved understanding of the importance of water resources as an essential cross cutting vector of socio economic development The book is both policy and practice oriented and is not constrained by existing definitions on water security It includes actual experiences of policy management development and governance decisions taken within the water sector and examples on how these have affected the energy and agricultural sectors as well as impacted the environment and vice versa as appropriate It also discusses trade offs short and long term implications lessons learnt and the way forward The book includes case studies on cities countries and regions such as Australia China Singapore Central Asia Morocco Southern Africa France Latin America Brazil and California      **A City in Blue and Green** Peter G. Rowe, Limin Hee, 2019-08-30 This open access book highlights Singapore s development into a city in which water and greenery along with associated environmental technical social and political aspects have been harnessed and cultivated into a liveable sustainable way of life It is also a story about a unique and thoroughgoing approach to large scale and potentially transferable water sustainability within largely urbanized circumstances which can be achieved along with complementary roles of environmental conservation ecology public open space management and the greening of buildings together with infrastructural improvements      *Handbook of Catchment Management* Robert C. Ferrier, Alan Jenkins, 2021-07-01 HANDBOOK OF CATCHMENT MANAGEMENT In 2010 the first edition of the Handbook of Catchment Management provided a benchmark on how our understanding and actions in water management within a catchment context had evolved in recent decades Over ten years on the catchment management concept is entering a new phase of development aligned to contemporary and future challenges These include climate change uncertainty further understanding in ecological functioning under change the drive for a low carbon energy efficient and circular society multiple uses of water the emergence of new pollutants of concern new approaches to valuation finance and pricing mechanisms stewardship and community engagement the integration of water across the Sustainable Development Goals SDG and the link between water energy and food These developments are framed within an increasingly data rich world where new analytics sensor technology and processing power are informing increasingly real time decision making The challenge is also to increase cross compliance and policy integration to meet multiple stakeholder objectives and to link actions to achieve cost effective outcomes In addition there are a number of new and exciting city region and basin scale real world examples of contemporary and new catchment thinking integrating science technology knowledge and governance to address multiple drivers and complex problems from across the globe The time is now right to capture the new challenges facing catchment management and water resources management globally This revised and updated edition of the Handbook of Catchment

Management features Thoroughly rewritten chapters which provide an up to date view of catchment management issues and contexts New case study material highlighting multi sectoral management in different globally significant basins and different geographical locations Up to date topics selected for their resonance not only in natural sciences and engineering but also in other fields such as socio economics law and policy The Handbook is designed for a broad audience but will be particularly useful for advanced students researchers academics and water sector professionals such as planners consultants and regulators

*Water and Public Policy in India* Deepti Acharya,2021-09-16 This book explores the conceptual and theoretical frameworks of Right to Water and analyzes its values in the context of water policy frameworks of the union governments in India It uses a qualitative approach and combines critical hermeneutics with critical content analysis to introduce a new water policy framework The volume maps the complex argumentative narrations which have emerged and evolved in the idea of Right to Water and traces the various contours and the nature of water policy texts in independent India The book argues that the idea of Right to Water has emerged evolved and is being argued through theoretical arguments and is shaped with the help of institutional arrangements developed at the international regional and national levels Finally the book underlines that India s national water policies drafted respectively in 1987 2002 and 2012 are ideal but are not embracing the values and elements of Right to Water The volume will be of critical importance to scholars and researchers of public policy environment especially water policy law and South Asian studies

**Urban Water Demand Management** Corinne Ong,Cecilia Tortajada,Ojasvee Arora,2023-05-13 This open access book highlights knowledge and expertise in Urban Water Demand Management WDM in ASEAN through comprehensive literature review and analysis as well as stakeholder consultations It documents urban WDM policies initiatives and practices that have demonstrated effective implementation outcomes across various contexts and which are expected to be relevant for cities in ASEAN A WDM typology developed for this book identifies four key WDM measures namely water losses economic instruments non price mechanisms and alternative water reuse systems in the ASEAN context Case illustrations of their effective implementation in different ASEAN cities are also included

*The Active, Beautiful, Clean Waters Programme* ,2017 It documents the development of the Active Beautiful Clean Waters Programme and illustrates the potential of Singapore s blue spaces as environmental assets to enhance the liveability of urban environments

**Mobilities and Foucault** Katharina Manderscheid,Tim Schwanen,David Tyfield,2017-10-02 Although Foucault s work has been employed and embraced enthusiastically by some mobilities scholars discussion across these two traditions to date has mostly been partial and unsystematic Yet Foucault s work can make critical contributions for example to thinking about governing mobilities in contemporary societies while conversely mobilities research opens up new perspectives on Foucault In combination these bodies of work can illuminate issues as diverse as the greater interdependencies between mobility systems e g transport tourism trade internet use the proliferation of the undesired mobilities of viruses of natural phenomena like fire of what is taken to be criminality and other

seemingly inevitable by products of globalisation the perceived threats to desirable forms of mobility as constituted by climate change peak oil and energy security and terrorism and warfare and the increased popularity of logics of governance premised on choice responsabilisation and the re coding of phenomena in economic terms under neo liberalism Against this background this book brings together the first major collection of contributions from across the social sciences with a shared interest in both mobilities and Foucauldian thinking This book was published as a special issue of Mobilities

**Urban Water Supply and Governance in India** Satyapriya Rout, Ruth Kattumuri, 2022-05-15 This book investigates institutional dimensions of urban water supply in India with a specific focus on institutional capabilities to provide drinking water to urban households in an efficient equitable and sustainable manner This book has been developed through empirical research within the context of growing urbanisation and increasing water needs of Indian cities and the wider developmental goal of achieving universal and equitable access to safe and affordable water for all as envisaged in goal 6 of the SDGs This study revolves around three important aspects of urban water supply and governance Firstly it attempts to understand household water service delivery scenarios in urban India drawing from case studies based on our household survey in four cities Ahmedabad Bangalore Kochi and Hyderabad Secondly it examines the question of existing socio economic inequality and access to water in an urban context in India While dealing with the issue of inequality and access to water it attempts to explore the question of whether access to water and water scarcity is socially neutral whilst also analysing the mechanisms employed by the urban poor to manage their daily water needs Thirdly this book explores the role of institutions for efficient and effective delivery of water in urban India The institutional analysis from a comparative perspective provides important insights to guide current reforms in domestic water supply in India especially in a neo liberal context The book is a valuable resource for academicians policy makers and practitioners involved in water governance in general and domestic drinking water supply in particular Besides it is of great interest to those working in the area of urban development urban planning and household water management The book is an outcome of a collaborative research project by the authors sponsored jointly by University Grants Commission UGC New Delhi and UK India Education and Research Initiative UKIERI
