The Hero's Mortal Walls William F. Woods, 2024-01-04 The heroes of early narrative are the faces of an older world In constant retellings their stories hold the memory like members of an extended family Gilgamesh Odysseus Beowulf Gawain Roland Yvain Genji in their colorful often exaggerated ways they show how the people of their own time and place liked to know themselves The heroes embody their identity and reflect their culture Because their world was difficult and dangerous every hero needed defensive strengths This book analyzes seven iconic heroes and compares each champion to a walled town or castle hardened against an outer threat These defenses are the mortal walls of their identity their strengths against the world as well as their dealings within it and are exemplified in their actions as warriors distinct rhetoric complex relationships with women and devotion to the divine By delving into some of early narrative's most renowned heroes the book reveals the pieces of their inner selves that even they cannot keep outside the walls but must finally accept with firm humility
