Transforming Business Big Data Mobility And Globalization

Jan Mendling, Haralambos Mouratidis

Transforming Business Big Data Mobility And Globalization:

Transforming Business Allison Cerra, Kevin Easterwood, Jerry Power, 2012-11-27 A unique perspective of an evolved role for company leadership Based on the findings of an extensive research project that surveyed more than 5 500 enterprise employees and functional decision makers across the United States and China Transforming Business Big Data Mobility and Globalization explores the influence of technology in the workplace and the implications to company culture functional responsibilities and competitive advantage This in depth analysis illuminates emerging technological trends the changing workforce and the shifting face of business and industry while offering prescriptive guidance to leaders Addresses how new technology trends including mobility cloud big data and collaboration are fundamentally changing the way work is conducted and how company leadership can tap into these trends to affect positive cultural reform Examines how the introduction of new technologies and the emergence of new business models are shifting traditional organizational roles including HR marketing finance and IT Takes an in depth look at how the next generation of top talent represented by college students at the top universities view their future workplace environment and how technology can become a meaningful magnet for recruitment and retention Zeroes in on how the integration of technology into the workplace differs between the United States and China and the implications to the global marketplace What emerges from this book is an evolved role for company leadership one of significant strategic value as cultural stewards capable of generating sustainable advantage for their companies in the most competitive market witnessed in decades

Managing Big Data Integration in the Public Sector Aggarwal, Anil, 2015-11-12 The era of rapidly progressing technology we live in generates vast amounts of data however the challenge exists in understanding how to aggressively monitor and make sense of this data Without a better understanding of how to collect and manage such large data sets it becomes increasingly difficult to successfully utilize them Managing Big Data Integration in the Public Sector is a pivotal reference source for the latest scholarly research on the application of big data analytics in government contexts and identifies various strategies in which big data platforms can generate improvements within that sector Highlighting issues surrounding data management current models and real world applications this book is ideally designed for professionals government agencies researchers and non profit organizations interested in the benefits of big data analytics applied in the public sphere

The Wiley Blackwell Companion to Tourism Alan A. Lew, C. Michael Hall, Allan M. Williams, 2014-04-02 The Wiley Blackwell Companion to Tourism presents a collection of readings that represent an essential and authoritative reference on the state of the art of the interdisciplinary field of tourism studies Presents a comprehensive and critical overview of tourism studies across the social sciences Introduces emerging topics and reassesses key themes in tourism studies in the light of recent developments Includes 50 newly commissioned essays by leading experts in the social sciences from around the world Contains cutting edge perspectives on topics that include tourism s role in globalization sustainable tourism and the state s role in tourism development Sets an

agenda for future tourism research and includes a wealth of bibliographic references

Shock of the New

Udell, Gary Woodill, 2019-04-02 Find the Leading Edge in a Disrupted World Planning our response to disruption seems impossible Most new and emerging technologies have been in development for decades but as soon as they land on our doorstep they inspire the shock of the new How do you as a learning professional prepare for what you don't know is coming How do you judge what is important and what is just a fad In Shock of the New The Challenge and Promise of Emerging Learning Technologies Chad Udell and Gary Woodill create a new framework for anticipating emerging learning technologies outlining six key perspectives you should consider with any new technology They examine some of the day's most commonly discussed emerging technologies and pose the questions that will point the way to your own strategy These insights aren't limited to specific applications they give you an approach you can apply to any new tech coming your way so you're always braced for the shock of the new Udell and Woodill optimistically point out that emerging technologies will help us make sense of our increasingly complex world many more changes will occur over the next decade so buckle up What was once science fiction has just become real and now is your opportunity to be on the leading edge

Understanding Leadership

Robert M McManus, Gamaliel Perruci, 2015-04-10 Lao Tzu Marx the Buddha Ibsen Machiavelli these are just a few of the world's great thinkers who have weighed in on the subject of leadership over the centuries Yet the contemporary student of leadership often overlooks many of these names in favour of more recent theorists hailing from the social sciences Understanding Leadership An Arts and Humanities Perspective takes a different angle employing the works of the great philosophers authors and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership The authors build their conceptual framework using The Five Components of Leadership Model which recognizes the leader the followers the goal the environmental context and the cultural values and norms that make up the leadership process Supporting the text are a wealth of case studies which reflect on works such as Ayn Rand's novella Anthem Eugène Delacroix's painting Liberty Leading the People Charlie Chaplin's film Modern Times Athol Fugard's play Master Harold and the Boys Lao Tzu's poetic work Tao Te Ching and Antonín Dvořák's New World Symphony The authors also introduce studies from various world cultures to particularly illustrate the role cultural values and norms play in leadership This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world Understanding Leadership An Arts and Humanities Perspective will be a valuable textbook for both undergraduate and postgraduate leadership students while leadership professionals will also appreciate the book's unique liberal arts and cultural approach

Beware of smart people! Redefining the smart city paradigm towards inclusive urbanism

Stollmann, Jörg, Wolf, Konrad, Brück, Andreas, Frank, Sybille, Million, Angela, Misselwitz, Philipp, Schlaack, Johanna, Schröder, Carolin, 2016-11-30 The Smart City paradigm aims at resource efficient urban development by means of ICT implementation Cities where we work and conduct our research are building Smart City strategies and that research institutions increasingly

fund research into the development of smart infrastructure and Smart Cities are considered a radical paradigm shift and motors of technological innovation economic growth higher quality of life efficiency and risk control in the face of shrinking resources and impending climate change This smartification is contrasted by increasing calls by civil society and urban social movements for more encompassing inclusion in decision making New urban actors are acquiring agency through situated knowledge local expertise social networking and cooperation and collaboration skills Behind these movements a seemingly parallel discourse to the Smart City paradigm is gaining ground the discourse of the commons Commons are defined as the combination of resources people and practices resources which are defined and managed by a group of people of commoners and a practice of commoning that looks after takes care for and fosters this resource without exhausting it Commoning is a practice that seems closer than any other practice to a sustainable way of life Are these two discourses the discourse on the Smart City and the discourse on the urban commons irreconcilable antagonists or do they share a common ground which needs to be uncovered developed and advocated This question is by no means merely theoretical It is also a very practical question which pertains to the management and distribution of the resources we depend on It is a very political question as it demands negotiation and the taking of sides And it is an ethical question in that it relates to how we respect and stand up for each other our fellow human beings and also the non human nature for which we are responsible The essays and transcripts of the symposium Beware of Smart People want to make a first contribution and stimulate future research in the field Das Paradigma der Smart City ist Ausdruck der Ambition Stadtentwicklung durch die Anwendung von IKT effizient und Ressourcen schonend zu gestalten Städte in denen wir arbeiten und bei der wir forschen entwickeln Smart City Strategien und Forschungsförderung spezialisiert sich zunehmend auf die Entwicklung smarter Infrastrukturen und Steuerungsmechanismen Smart Cities werden als radikaler Paradigmenwechsel gelesen und als Motoren technologischer Entwicklung konomisches Wachstum höhere Lebensqualität Effizienz und Risikokontrolle angesichts abnehmender Ressourcen und drohenden Klimawandels Dieser Smartifizierung stehen die zunehmenden Forderungen zivilgesellschaftlicher Gruppen und sozialer Bewegungen für mehr und umfassendere Einbindung in Entscheidungsprozesse entgegen Neue urbane Akteure werden zu Agenten indem sie ihre Erfahrungswissen ihre lokalen Kenntnisse ihre sozialen Netzwerke und Fähigkeiten zur Kooperation und Kollaboration einbringen Hintergrund diese Bewegungen ist ein augenscheinlich paralleler Diskurs zur Smart City welcher sich zunehmend Gehör verschafft der Diskurs bei der Gemeingüter die Commons Commons werden definiert als das Zusammenspiel von Ressourcen Menschen und Praktiken Ressourcen die von einer Gemeinschaft den Commonern definiert und verwaltet werden und eine Praxis des Commoning welche die Ressource schonend bewirtschaftet ohne sie zu verbrauchen In diesem Sinne scheint Commoning eine Praxis die einer nachhaltigen Lebensweise am nächsten kommt Sind diese zwei Diskurse der Diskurs bei der Smart City und jener bei der urbanen Gemeingüter unvereinbare Antagonisten oder teilen sie Gemeinsamkeiten welche offen gelegt weiter entwickelt und

verfechtet werden sollten Diese Frage ist keineswegs eine rein theoretische Sie ist eine sehr praktische Frage da sie auf das die Verteilung und das Management lebenswichtiger Ressourcen zielt Sie ist eine politische Frage da sie Auseinandersetzung und Parteinahme einfordert Und sie ist eine ethische Frage denn sie fordert gegenseitigen Respekt und Einsatz ein f r unsere Mitmenschen sowie f r die nichtmenschliche Natur f r die wir Verantwortung tragen Die Texte und Aufzeichnungen des Symposiums Beware of Smart People wollen hierzu einen Beitrag leisten und zuk nftige Forschungsvorhaben stimulieren

Digital Transformation of Business Everlin Piccinini,2016-08-26 History of corporations is replete with stories of fundamental organizational change in the face of breakthroughs in technology and significant economic changes Yet pervasive digitalization i e a socio technical process whereby digital technology capabilities are embedded into everyday artifacts and life altering everyday experiences and interactions brings about substantial changes in environmental conditions not seen before The fast paced unbounded ongoing and potentially disruptive nature of change in today s digitized world is fueled by the generativity of digital innovation forcing incumbents across industries to transform and adapt This cumulative dissertation presents five studies that provide a comprehensive understanding on the emerging phenomenon of digital transformation of business With the help of primary data collected from more than 40 industry experts as well as secondary data it aimed at explaining through a configurational perspective how in certain contextual conditions a combination of particular mechanisms may lead automotive manufacturing organizations to embark on a sustainable digital transformation of their business Overall the findings derive a holistic view of the investigated phenomenon indicating that it stems from socio technical developments in the macro meso and micro levels of business fostering incumbents to build new mechanisms that activate digital transformation capabilities to rapidly respond to such socio technical developments fundamentally altering their traditional business logics Nevertheless research on the phenomenon of digital transformation is in its infancy in both information systems and organizational science research therefore more in depth empirical accounts are still needed

Information Systems in the Big Data Era Jan Mendling,Haralambos Mouratidis,2018-06-06 This book constitutes the thoroughly refereed proceedings of the CAiSE Forum 2018 held in Tallinn Estonia as part of the 30th International Conference on Advanced Information Systems Engineering CAiSE 2018 in June 2018 The CAiSE Forum is a place within the CAiSE conference for presenting and discussing new ideas and tools related to information systems engineering Intended to serve as an interactive platform the Forum aims at the presentation of emerging new topics and controversial positions as well as demonstration of innovative systems tools and applications This year s theme was Information Systems in the Big Data Era The 10 full and 12 short papers in this volume were carefully reviewed and selected from 17 direct submissions of which 2 full and 7 short papers were selected plus 13 transfers from the CAiSE main conference which resulted in another 8 full and 5 short papers
