Field Data Acquisition Technologies for Iowa Transportation Agencies E. J. Jaselskis,1994 This report describes the results of the research project investigating the use of advanced field data acquisition technologies for Iowa transportation agencies The objectives of the research project were to 1 research and evaluate current data acquisition technologies for field data collection manipulation and reporting 2 identify the current field data collection approach and the interest level in applying current technologies within Iowa transportation agencies and 3 summarize findings prioritize technology needs and provide recommendations regarding suitable applications for future development A steering committee consisting of state city and county transportation officials provided guidance during this project Technologies considered in this study included 1 data storage bar coding radio frequency identification touch buttons magnetic stripes and video logging 2 data recognition voice recognition and optical character recognition 3 field referencing systems global positioning systems GPS and

geographic information systems GIS 4 data transmission radio frequency data communications and electronic data interchange and 5 portable computers pen based computers The literature review revealed that many of these technologies could have useful applications in the transportation industry A survey was developed to explain current data collection methods and identify the interest in using advanced field data collection technologies Surveys were sent out to county and city engineers and state representatives responsible for certain programs e g maintenance management and construction management Results showed that almost all field data are collected using manual approaches and are hand carried to the office where they are either entered into a computer or manually stored A lack of standardization was apparent for the type of software applications used by each agency even the types of forms used to manually collect data differed by agency Furthermore interest in using advanced field data collection technologies depended upon the technology program e g pavement or sign management and agency type e g state city or county The state and larger cities and counties seemed to be interested in using several of the technologies whereas smaller agencies appeared to have very little interest in using advanced techniques to capture data A more thorough analysis of the survey results is provided in the report Recommendations are made to enhance the use of advanced field data acquisition technologies in Iowa transportation agencies 1 Appoint a statewide task group to coordinate the effort to automate field data collection and reporting within the Iowa transportation agencies Subgroups representing the cities counties and state should be formed with oversight provided by the statewide task group 2 Educate employees so that they become familiar with the various field data acquisition technologies

web the primal target of the experiment is to make a roll pass design for hot flat rolling roll pass design methods includes determining the dimensions shape number and type of arrangement of rolling mill passes necessary calculations are done to determine rolling load torque and power by using the data

a knowledge based expert system for roll pass and profile design - Jun 21 2023

web may 19 1999 process sequence design of shape rolling consists of roll pass design and profile design which will enable a simple billet to be transformed into a final complex shape in general sequence design relies on empirical rules or the know how of design engineers requiring costly effort at the development stage

roll pass design and simulation on continuous rolling of alloy - Mar 18 2023

web jan 1 2019 in this paper three dimensional elastoplastic finite element simulation with thermal mechanically coupled analysis is applied to study the roll pass design of the hot continuous rolling of $\Phi 100\text{mm}$ alloy steel round bar

numerical simulation in roll pass design for bar rolling - Aug 11 2022

web jan 1 2015 the first one is a classical oval round roll pass design the second one is a combination of flat rolls and round roll passes relying on the simulation data obtained by fem the roll

roll pass design and simulation on continuous rolling of alloy - Dec 15 2022

web initial billet of square cross section the roll pass sequence is designed as box pass for h1 pass box pass for v2 pass box pass for h3 pass square pass for v4 pass oval pass for h5 pass and

a knowledge based expert system for roll pass and profile design - Jan 16 2023

web may 19 1999 in shape rolling the determination of roll pass and profile design is of importance in the present investigation a knowledge based expert system is developed for the design of roll pass and profile sequences for the *schematic of roll pass design for the oval round pass a and* - May 08 2022

web jan 2015 sergey aksenov e n chumachenko i v logashina tomas kubina the application of finite element simulation to the problem of roll pass design for round bar rolling is considered

roll pass design for bars pdf electric motor scribd - Apr 07 2022

web this roll pass schedule is being prepared for 7 8 diameter round bar deformed bar 7 8 square bar with one size initial material billet $2\frac{1}{2} \times 2\frac{1}{2}$ size as per mill layout rolling path of the product

automated procedure for roll pass design springerlink - Oct 13 2022

web apr 1 2009 the traditional approach to the design of the profile of the roll passes is based on subdividing the entire sequence into sub sequences ref 1 e g diamond diamond square diamond square square oval square and round oval round fig 1 the calculation of the number of passes is then made by considering an average elongation

towards energy efficient shape rolling roll pass optimal design - Sep 24 2023

web may 9 2019 in the development of shape rolling systems roll pass design rpd plays an essential role on the quality control of products service life of rolls productivity of rolling systems as well as energy consumption of rolling operations

roll pass design for light section square steel bar springer - Nov 14 2022

web the new roll pass design developed and introduced on the light section rolling mill no 250 for roiling square section bars is more advantageous than the widely used rhombus to square design

roll pass design for round bars sciencedirect - Feb 17 2023

web jan 1 1990 the roll pass design of a whole rolling line for round bars can be carried out successfully using the actual pc the present work examines the computer aided roll pass design of round bars it deals with the roll pass design strategy of roughing sequences with heavy stretch and finishing sequences

designing of roll passes for section rolling of - Apr 19 2023

web support roll pass design of bar rolling where simple shapes like round and squares bars are produced was developed in order to minimize trial and errors in industry by h c kwon and y t

pdf new roll pass design to the bar rolling process using - Sep 12 2022

web jun 1 2010 pdf the paper presents the developed new roll pass design and a new method of rolling in slitting passes of bar with longitudinal band which reduce find read and cite all the research you

roll pass design in continuous bar mills ppt slideshare - Mar 06 2022

web sep 19 2012 ansar rizvi 34 8k views 23 slides rolling jithu john views roll pass design in continuous bar mills download as a pdf or view online for free

roll pass design for light section square steel bar springerlink - Jul 10 2022

web roll pass design for light section square steel bar g s utkin v i krainov É g kirsanov metallurgist 18 207 208 1974 cite this article 42 accesses metrics download to read the full article text additional information chelyabinsk steel plant translated from metallurg no 3 pp 28 29 march 1974 rights and permissions

pdf automated procedure for roll pass design researchgate - Jul 22 2023

web apr 1 2009 chen et al 18 carried out an optimal design for the assel roll profile using a genetic artificial neural network an automatic rpd method was proposed by lambiase and langella 19 to

concept of optimal bar roll pass design report 4 optimization of roll - May 20 2023

web mar 6 2023 the roll pass design scheme corresponding to the minimal target function is considered the best the general idea and scheme of optimizing roll pass design that is suitable for a most broad range of structural sections is described in work 1 as part of the optimal roll pass design concept

roll pass design ispatguru - Aug 23 2023

web jun 18 2014 roll pass design is an essential part of long product rolling process since the long products are rolled between the shaped rolls in the long product rolling mills roll pass design generally means the cutting of grooves in the roll body through which steel to be rolled is made to pass sequentially to get the desired contour and size

roll pass design for round bars sciencedirect - Feb 05 2022

web jan 1 1990 in this study a computer aided design cad system to support roll pass and roll profile design of bar rolling where simple shapes like round and square bars are produced was developed in order to minimize trial and errors in industry
