Americas Antiquities: 100 Years of Managing Fossils on Federal Lands Spencer G. Lucas, Justin A. Spielmann, Patricia M. Hester, Jason P. Kenworthy, Vincent L. Santucci, 2006-01-01 **An Illustrated Guide to Eastern Woodland Wildflowers and Trees** Melanie Choukas-Bradley, 2004 Surely such a familiar landmark and its flora need no introduction But leaf through the book or better yet get Brown and Choukas Bradley to take you on a tour and you realize that while the rest of the world has been looking at Sugarloaf through a telescope this intrepid pair has been using a magnifying glass Their record of these trees and wildflowers has become one of the most complete guides to local upland flora available and they hope it will be used not just in other natural areas but in back yards where people want to raise native plants themselves Washington Post In between a field guide and a botanical manual Choukas Bradley and Brown have created a must have to tote into the woods of Sugarloaf Mountain The authors have included every flowering plant they observed during ten years of extensive hiking and exploration on Sugarloaf This guide would be useful to any naturalist serious or casual venturing into the wilds of the Northeastern United States and adjacent Canada *E Streams* This book contains an easy to use non technical botanical key for flowering plants herbaceous and woody alike The author describes each plant and its individual parts all related

species and details on the plant's growth habit, its natural range and habitat, its bloom time and where it can be found on Sugarloaf Mt. Solidago. The Newsletter of the Finger Lakes Native Plant Society. A thorough yet user-friendly companion to the author's popular paperback Sugarloaf: The Mountain's History, Geology, and Natural Lore, this volume is an exquisitely illustrated guide to 350 eastern woodland wildflowers and trees found onsite at Sugarloaf Mountain, Maryland. It includes a botanical key and an illustrated glossary of common and scientific names and is packed with nearly 400 elaborately and artistically detailed pen and ink drawings to make plant identification simple and fun. Melanie Choukas Bradley is the author of City of Trees: The Complete Field Guide to the Trees of Washington, D.C. and a longtime contributor to the Washington Post. She teaches field botany for the USDA Graduate School. Tina Thieme Brown has worked as a landscape artist and environmentalist for twenty-five years. She teaches art at the U.S. Botanic Garden, is an artist on the Countryside Artisans Studio Tour, and creates art inspired by the Sugarloaf Mountain countryside in her 1790s log cabin studio. Choukas Bradley and Brown lead Sugarloaf Mountain field trips for the Audubon Naturalist Society of the Central Atlantic States and other organizations. Published in association with the Center for American Places. *Walking Seasonal Roads* Mary A. Hood, 2012-05-18. Seasonal roads are defined as one-lane dirt roads not maintained during the winter. They function as connectors linking farmers to their fields, neighbors to neighbors, or two more well-traveled roads to each other. Some access hunting lands and recreational areas. Some pass by cemeteries, allowing people to visit and honor their dead. They can be abandoned as people move and towns fade. In every incarnation, the seasonal road touches the land in a gentler way than do other roads. Having traveled nearly every seasonal road in Steuben County, New York, Hood finds they provide the ideal vantage to contemplate the meaning of place, offering intimate contact with plant and wildlife and the beauty of a rural landscape. Each road reveals how our land is used, how our land is protected, and how environmental factors have impacted the land. As a literary naturalist, Hood reflects on endangered species and invasive species as well as on issues of conservation and sustainability. From state forests to potato fields, from development along Keuka Lake to vineyards, from old family cemeteries to logging sites, *Walking Seasonal Roads* is a celebration and an honoring of the rural and the regionalism of place, illustrating the ways we connect to our home and to each other. Sugarloaf Melanie Choukas-Bradley, 2003. In this natural history and guidebook, Choukas Bradley presents a fascinating blend of local natural and historical detail that transports readers simultaneously onto the slopes of today's mountain and into the region's past. 26 illustrations. yield Describing seasonal events such as Potomac valley wildflowers blooming in early spring shorebirds converging on Delaware Bay mudflats in mid May and monarch butterflies migrating over mountain fields in early fall the author also provides itineraries for visiting some of his favorite spots Complete with black and white watercolor illustrations maps an extensive bibliography and listings of resource organizations Watching Nature emphasizes the accessibility of the natural world **Choice** ,1997 **Journal of Appalachian Studies** ,1998 *NJ Audubon* ,2002 Natural History ,2003
