## Way Cardines Classic Reprint:

*The Way of the Cardines (Classic Reprint)* Stanley Portal Hyatt, 2015-07-12 Excerpt from The Way of the Cardines The town of Mati was still asleep at least for all practical purposes True a few native fishermen were languidly getting ready to launch their canoes and the never ending war between lean pig and leaner dog a war in which the spoils were stray pieces of offal was being waged in a score of places along the beach but beyond these and the inevitable water buffalo wallowing heavily in the mud at the back of the old stone fort nothing was stirring Possibly a stranger would have found it hard to believe that Mati really was the principal seaport of the Island of Katu yet in fairness to the place it must be admitted that it was abnormally quiet that morning About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Valleriani, 2020-01-23 This open access book explores commentaries on an influential text of pre Copernican astronomy in Europe It features essays that take a close look at key intellectuals and how they engaged with the main ideas of this qualitative introduction to geocentric cosmology Johannes de Sacrobosco compiled his Tractatus de sphaera during the

thirteenth century in the frame of his teaching activities at the then recently founded University of Paris. It soon became a mandatory text all over Europe. As a result, a tradition of commentaries to the text was soon established and flourished until the second half of the 17th century. Here readers will find an informative overview of these commentaries complete with a rich context. The essays explore the educational and social backgrounds of the writers. They also detail how their careers developed after the publication of their commentaries, the institutions and patrons they were affiliated with, what their agenda was, and whether and how they actually accomplished it. The editor of this collection considers these scientific commentaries as genuine scientific works. The contributors investigate them here not only in reference to the work on which it comments but also and especially as independent scientific contributions that are socially institutionally and intellectually contextualized around their authors.

**British Books**, 1914     The Critic Jeannette Leonard Gilder, Joseph Benson Gilder, 1895     The Classical World, 1940     **Critic and Literary World** Jeannette Leonard Gilder, Joseph Benson Gilder, 1895     **Understanding Medieval Liturgy** Helen Gittos, Sarah Hamilton, 2017-05-15. This book provides an introduction to current work and new directions in the study of medieval liturgy. It focuses primarily on so-called occasional rituals such as burial, church consecration, exorcism, and excommunication rather than on the Mass and Office. Recent research on such rites challenges many established ideas, especially about the extent to which they differed from place to place and over time, and how the surviving evidence should be interpreted. These essays are designed to offer guidance about current thinking, especially for those who are new to the subject, want to know more about it, or wish to conduct research on liturgical topics. Bringing together scholars working in different disciplines—history, literature, architectural history, musicology, and theology—time periods from the ninth to the fifteenth centuries, and intellectual traditions, this collection demonstrates the great potential that liturgical evidence offers for understanding many aspects of the Middle Ages. It includes essays that discuss the practicalities of researching liturgical rituals, show through case studies the problems caused by over-reliance on modern editions, explore the range of sources for particular ceremonies, and the sort of questions which can be asked of them and go beyond the rites themselves to investigate how liturgy was practised and understood in the medieval period.
