Weaving The Visions New Patterns In Feminist Spirituality:

Weaving the Visions Judith Plaskow, 1989-03-08 Key writings in feminist spirituality drawing on the great diversity of women's experience Women's Spirituality, Women's Lives Judith Ochshorn, Ellen Cole, 1995 This enlightening book examines how the feminist spirituality movement contributes to the establishment of new paradigms of mental health for women. Women's Spirituality Women's Lives examines possible psychotherapeutic implications for women engaged in feminist spirituality and stimulates much needed conversation between feminist therapists and feminist theologians/ritualists. Feminist spirituality is part of the current broad challenge to accepted ways of knowing and being. This book argues that as women tell their own stories they create rituals that enable them to feel a sense of control over the future and to move toward a kind of authority/agency and autonomy associated with mental health and psychological well-being. Women from many cultural backgrounds and religious perspectives have embraced alternative forms of spiritual expression based on profound theoretical challenges to mainstream religious beliefs ranging from calls for the radical reclamation and reconstruction of religious traditions to personal involvement in goddess worship and Wicca. Women's Spirituality Women's Lives presents theoretical/conceptual and experiential chapters that analyze the extent to which these proliferating women's groups represent the beginnings of new norms of mental health for women. Women's Spirituality Women's Lives presents a variety of voices including Native American, Christian, Jewish, and Wiccan. Chapters are divided into three sections: Laying the Groundwork, Theoretical Challenges, and Living It Out, and explore a diverse array of topics such as the shouting church and Black women's mental health, a traditionalist Native American challenge to New Age cooptation, a feminist group, and Jewish women's self-identity, lesbian altar making and mental health, feminist Wicca in the U.S. and Germany, the martial arts and women's mental health, the use of feminist rituals in therapy and as therapy. Feminist therapists and theologians as well as other individuals interested in feminist spirituality or alternative spirituality will find this book a fascinating exploration of the various aspects of the spirituality of women. Women's Spirituality Women's Lives is also an excellent reader to expand the thinking of students in classes in women's studies and religious studies Priestess, Mother, Sacred Sister Susan Starr Sered, 1996 In this fascinating and path-breaking work comparing 12 women's religions, Sered investigates how women's religions differ from those dominated by men. She then reveals how these religions relate to the special ways women around the world experience reality. 19 halftones **The Magic Lantern** José Tomás de Cuéllar, 2000 Two renderings of a Mexican society fast unraveling under the mounting influence of European culture. Cover **Women, Earth, and Creator Spirit, Revised Edition** Johnson, Elizabeth A., 2022-11 While this derives from a Madeleva lecture of the same title that was delivered in 1993, the points made and updated by Elizabeth Johnson in this revised edition of Women, Earth, and Creator Spirit are even more pressing today. Since the 1990s the environment has only been degraded more, and one could argue that the status of women has been eroded by the rise of religious fundamentalism in almost every culture. Johnson draws out the

links between attitudes toward women and the way we treat the natural world around us If nature is somehow perceived as feminine then it is no surprise that it is heedlessly abused and used especially when both women and the earth exist under the sovereignty of a patriarchal God

Partial Truths and the Politics of Community Robin L. Teske, Mary Ann Tétreault, 2003 *Partial Truths and the Politics of Community* considers what happens after feminists succeed in achieving social change or in founding organizations dedicated to accomplishing their personal and social goals This collection of eighteen essays by scholars from the fields of international relations and feminist studies explores the theoretical dilemmas and practical politics of living with raised consciousnesses in worlds of our own making The contributors explore feminisms as dreams of human rights as a cluster of ideologies and as a bounty of social practices set within frameworks for tackling problems in nation building and global governance In essays that illustrate the impact of feminist concerns with the quality of education the contributors offer studies of homeschooling of the education of impoverished girls in rural Mexico of sororities and their relation to female autonomy and of the teaching of prisoners by volunteers in county jails Other contributors call for a greater attention to the ecology of social life viewing society as a complex of individuals bound to one another through webs of transactions and obligations These contributors recount examples from Northern Ireland Poland and the United States in which such webs sometimes support and sometimes strangle efforts to achieve human dignity and autonomy Evaluating progress made in the legal realm other contributors chart the opportunities and limitations of international and domestic law as tools to advance and protect human rights They consider gender discrimination in universities and colleges the United Nations and its mixed record on women s issues and the effects of adding rape to the list of prosecutable war crimes The volume concludes with two works on how feminism supports democratic constructions of science and religion with results that destabilize dominant institutions in both realms

Transformation Through Menopause Marian Van Eyk McCain, 1991-09-30 This is by far the most wise and thought provoking book on menopause that I have ever read It is must reading for every woman who dares to meet the challenges of menopause fully and consciously Christiane Northrup M D This volume presents a holistic theoretical framework for understanding menopause as a major developmental event in women s lives Rather than an unpleasant phase to be endured or alleviated Marian Van Eyk McCain views menopause as an empowering experience that women can use for personal growth Artfully interweaving her research years of clinical experience and her personal perceptions of menopause to create an inspiring new vision of the change of life She goes well beyond a discussion of hormones and hot flashes to uncover the deep emotional and spiritual significance of this time in women s lives This book is not only about change on a personal or physical level but in society as well McCain lays out historical and cross cultural beliefs about menstruation and menopause and the attitudes surrounding them from taboos to reverence and points out that in our modern society women most often either try to ignore or make it through this essential period of womanhood in order to compete in a man s world on male terms In tune with recent feminist thought the author

says there is a new womanpower emerging which means that it is time for women to honor their natural cycles There is no other book that combines the insights inspiration and wealth of information contained in this work It is an important book for the alternative minded baby boom generation who are seeking new ways to approach middle age *Re-creating Womanhood* Heather Lynn Claussen,1992 Women and Goddess Traditions Karen L.
