It's been the hottest Summer in Years!

A BUSTLE!

...and I've really been busy keeping you folks cool!

We are in the midst of one of the hottest summers ever known in this area. The thermometer in this ad indicates temperatures have reached in some places, for days at a time, more than the temperature of a white incandescent bulb, which is well known to be a source of heat. It is a fact, too, that in our communities, the heat is not merely an annoyance, but a source of danger to the health of the people. Denny Emerson, 2025-11-04 With horses we don't get a do over button as much as we do sometimes like one. We have to live with the choices we make even when looking back we know there might have been a better way to communicate a different way to teach a new lesson or another means to reach the desired end. In this smart honest book chock full of valuable takeaways gold medalist and renowned rider and coach Denny Emerson uses stories of the standout horses from his own riding career which spans almost 70 years to detail some of the things he wishes he'd known then that he knows now. With a candid willingness to share mistakes he's made over the years and clearly articulated ideas on how others can avoid them he commits himself and those reading to finding more conscientious ways to ride train and work with horses. From basics like aids and equipment to more specialized subjects such as rider fitness emotional control and how to determine what success with your horse really means riders of all skill levels can gain valuable hard won knowledge from his bite size lessons in life and horsemanship. Perhaps most importantly Emerson insists that it is never ever too late to change for the good of the horse and for the good of oneself.
