**BOOK JACKET** *Secularism Confronts Islamism* Mohammad Affan,2022-01-31 This book provides in depth examination of the recent confrontation between Islamists and secularists in Egypt and Tunisia Presenting a new approach to understand Islamism and secularism the research addresses the variables that could affect the outcome of transitional negotiations The secularist Islamist conflict proved to be a major hindrance for democratisation and a main source of political instability in the Middle East During the Arab Spring disputes between both political trends sparked shortly after getting rid of their common enemy the autocratic rulers First they disagreed on how to lead the transitional period Then polarisation grew deeper with the political competition in the parliamentary and presidential elections and the ideological disagreements during the drafting of the constitution Eventually this conflict put Tunisia at a verge of civil strife in the summer of 2013 and led to collapse of the transitional process in Egypt after the military coup Examining the causes of the conflict between the secularists and the Islamists during the transitional period the work provides new insights from the Arab Spring experience Updating the transition literature the book is a key resource to academics and students interested in democratization theory

and Middle East politics      Swapo's Struggle for Namibia, 1960-1991 Lauren Dobell, 1998      **The Politics of the Postcommunist World** Stephen White, Daniel Nelson, 2017-11-01 This title was first published in 2001 This series brings together the most significant journal articles to appear in the field of comparative politics since the 1970s The aim is to render accessible to teachers researchers and students an extensive range of essays as a basis for understanding established terrain and new ground      **Transitions from Authoritarian Rule** Guillermo O'Donnell, Philippe C. Schmitter, Laurence Whitehead, 1993      Democratic Transitions Sujian Guo, Gary A Stradiotto, 2014-04-03 Democratic transitions have occurred in many countries in various regions across the globe such as Southern Europe Latin America Africa East and Southeast Asia Eastern Europe and the Middle East and these nations have undergone simultaneously political economic and social transformations Yet the patterns and characteristics of transitions have varied significantly and different modes of transition have resulted in different outcomes This book offers cross national comparisons of democratic transition since the turn of the twentieth century and asks what makes democracies succeed or fail In doing so it explores the influence the mode of transition has on the longevity or durability of the democracy by theoretically examining and quantitatively testing this relationship The authors argue that the mode of transition directly impacts the success and failure of democracy and suggest that cooperative transitions where opposition groups work together with incumbent elites to peacefully transition the state result in democracies that last longer and are associated with higher measures of democratic quality Based on a cross national dataset of all democratic transitioning states since 1900 this book will be of great interest to students and scholars of international politics comparative politics and democracy and democratization studies      **Transitions from Authoritarian Rule** Guillermo O'Donnell, Philippe C.
