Transnational Transcendence Essays On Religion And Globalization 1st First Edition 2009:

Global Pentecostalism: An Inquiry into the Cultural Dimensions of Globalization Matthias Deininger, 2014-02-01

The rapid global expansion of Pentecostal Christianity is one of the most striking religious phenomena in our contemporary world. Today Pentecostalism is by no means some marginal or peculiar denomination within world Christianity. It is not simply a niche product in the global religious market but the most dynamic and fastest growing religious movement within the contemporary Christian world. From Singapore over Brazil to Ghana Pentecostal Christians are historically and presently rooted in many cultural contexts throughout the world. As such Pentecostalism is a religious movement that is both shaped by globalization processes but also a major contributor to the globalization of religion. Until recently social scientific approaches to Christianity have often been informed by a rather selective understanding of Christianity stressing its ascetic components premised on a body spirit dualism and seeing its importance mainly as a harbinger of secular modernity. Hence where Christianity was studied outside the West it has usually been peripheral and viewed as an alien intrusion undermining local cosmologies. However rather than a religious rejection of the world Pentecostalism accommodates to the world and modernity. It transcends locality by promulgating a universal imaginary of the world while at the same time incorporating itself successfully into the socio cultural contexts of any new cultures it encounters. The fundamental fluidity of the transnational Pentecostal network is conducive for its flexibility to react on the enormous upheavals and changes in a globalized world and to accommodate to them in constructive ways. Thus Pentecostalism can be regarded as a paradigmatic case of a glocalized religion: it has the ability to adapt itself to local conditions while maintaining and preserving its distinct religious features at the same time. This study focuses on the different theoretical attempts made to explain the massive global expansion of Pentecostalism and its relation to broader processes of globalization. It discusses to what extent and in what complex ways the Pentecostal movement is interrelated to processes of cultural globalization. By looking at the internal religious characteristics of Pentecostal discourse and discursive practices and their articulations within the external circumstances of globalization it tries to untangle some of the complexities that emerge when theorizing the globalization of Pentecostalism.

Shamanism and Violence Davide Torri, 2016-04-01. Proposing a new theoretical framework this book explores Shamanism's links with violence from a global perspective. Contributors renowned anthropologists and authorities in the field draw on their research in Mongolia, China, Korea, Malaysia, Nepal, India, Siberia, America, Papua New Guinea, Taiwan to investigate how indigenous shamanic cultures dealt and are still dealing with varying degrees of internal and external violence. During ceremonies shamans act like hunters and warriors dealing with many states related to violence such as collective and individual suffering, attack, conflict and antagonism. Indigenous religious complexes are often called to respond to direct and indirect competition with more established cultural and religious traditions which undermine the sociocultural structure, the sense of identity and the state of well being of many indigenous groups. This book explores a more sensitive

vision of shamanism closer to the emic views of many indigenous groups *The Spirit of Praise* Monique M. Ingalls, Amos Yong, 2015-06-18 In *The Spirit of Praise* Monique Ingalls and Amos Yong bring together a multidisciplinary scholarly exploration of music and worship in global pentecostal charismatic Christianity at the beginning of the twenty first century. *The Spirit of Praise* contends that gaining a full understanding of this influential religious movement requires close listening to its songs and careful attention to its patterns of worship. The essays in this volume place ethnomusicological, theological, historical and sociological perspectives into dialogue. By engaging with these disciplines and exploring themes of interconnection, interface and identity within musical and ritual practices, the essays illuminate larger social processes such as globalization, sacralization and secularization as well as the role of religion in social and cultural change. Aside from the editors, the contributors are Peter Althouse, Will Boone, Mark Evans, Ryan R. Gladwin, Birgitta J. Johnson, Jean Ngoya, Kidula Miranda Klaver, Andrew Mall, Kimberly Jenkins Marshall, Andrew M. McCoy, Martijn Oosterbaan, Dave Perkins, Wen Reagan, Tanya Riches, Michael Webb and Michael Wilkinson *The Diaspora of Brazilian Religions*, 2013-03-27 *The Diaspora of Brazilian Religions* explores the global spread of religions originating in Brazil, a country that has emerged as a major pole of religious innovation and production. Through ethnographically rich case studies throughout the world, ranging from the Americas (Canada, the U.S., Peru and Argentina) and Europe (the U.K., Portugal and the Netherlands) to Asia (Japan and Oceania), Australia, the book examines the conditions, actors and media that have made possible the worldwide construction, circulation and consumption of Brazilian religious identities, practices and lifestyles, including those connected with indigenized forms of Pentecostalism and Catholicism, African based religions such as Candomblé and Umbanda, as well as diverse expressions of New Age Spiritism and Ayahuasca centered neo shamanism like Vale do Amanhecer and Santo Daime. Contributors include Ushi Arakaki, Dario Paulo Barrera, Rivera Brenda, Carranza Anthony, D'Andrea Sara, Delamont Alejandro, Frigerio Alberto, Groisman Annick, Hernandez Clara, Mafra Cecilia, Mariz Deirdre, Meintel Carmen, Rial Cristina, Rocha Camila, Sampaio Clara, Saraiva Olivia, Sheringham Neil, Stephens Jos, Claudio Souza, Alves Claudia, Swatowski and Manuel A. Csordas, 2009-03-31 This innovative collection examines the transnational movements effects and transformations of religion in the contemporary world offering a fresh perspective on the interrelation between globalization and religion Transnational Transcendence challenges some widely accepted ideas about this relationship in particular that globalization can be understood solely as an economic phenomenon and that its religious manifestations are secondary The book points out that religion s role remains understudied and undertheorized as an element in debates about globalization and it raises questions about how and why certain forms of religious practice and intersubjectivity succeed as they cross national and cultural boundaries Framed by Thomas J Csordas s introduction this timely volume both urges further development of a theory of religion and globalization and constitutes an important step toward that theory
