Modern British Marketplace Kristin M.S. Bezio, Scott Oldenburg, 2021-11-29 Religion and the Early Modern British Marketplace explores the complex intersection between the geographic material and ideological marketplaces through the lens of religious belief and practice By examining the religiously motivated markets and marketplace practices in the sixteenth and seventeenth centuries in England Scotland and Wales the volume presents religious praxis as a driving force in the formulation and everyday workings of the social and economic markets Within the volume the authors address first

spiritual markets and marketplaces discussing the intersection of Puritan and Protestant Ethics with the market economy The second part addresses material marketplaces including the marriage market commercial trade markets and the post Reformation Catholic black market In the third part of the volume the chapters focus specifically on publication markets and books including manuscripts and commonplace books as well as printed volumes and pamphlets Finally the volume concludes with an examination of the literary marketplace with analyses of plays and poems which engage with and depict both spiritual and material markets Taken as a whole this collection posits that the modern conception of a division between religion and the socioeconomic marketplace was a largely fictional construct and the chapters demonstrate the depth to which both were integrated in early modern life
