Understanding Pain Exploring The Perception Of Pain By Fernando Cervero Aug 17 201:

Understanding Pain Fernando Cervero,2014-02-14 An expert explores the nature of pain why it hurts and why some pain is good and some pain is bad If you touch something hot it hurts You snatch your hand away from the hot thing immediately Obviously But what is really happening biologically and emotionally In *Understanding Pain* Fernando Cervero explores the mechanisms and the meaning of pain You touch something hot and your brain triggers a reflex action that causes you to withdraw your hand protecting you from injury That kind of pain Cervero explains is actually good for us it acts as an alarm that warns us of danger and keeps us away from harm But Cervero tells us not all pain is good for you There is another kind of pain that is more like a curse chronic pain that is not related to injury This is the kind of pain that fills pain clinics and makes life miserable Cervero describes current research into the mysteries of chronic pain and efforts to develop more effective treatments Cervero reminds us that pain is the most common reason for people to seek medical attention but that it remains a biological enigma It is protective but not always Its effects are not only sensory but also emotional There is no way to measure it objectively no test that comes back positive for pain the only way a medical professional can gauge pain is by listening to the patient s description of it The idea of pain as a test of character or a punishment to be borne is changing prevention and treatment of pain are increasingly important to researchers clinicians and patients Cervero s account brings us closer to understanding the meaning of pain Understanding Pain Austin Kyger,2021-04-03 An expert explores the nature of pain why it hurts and why some pain is good and some pain is bad If you touch something hot it hurts You snatch your hand away from the hot thing immediately Obviously But what is happening biologically and emotionally In *Understanding Pain* he explores the mechanisms and the meaning of pain You touch something hot and your brain triggers a reflex action that causes you to withdraw your hand protecting you from injury That kind of pain he explains is good for us it acts as an alarm that warns us of danger and keeps us away from harm Pain is the number one reason that people visit their physicians yet unrelieved pain continues to be a major medical problem throughout the world He has a Ph D in biochemistry and thirty years of research experience in immunology and pain including pain medications She discusses current medications and alternative methods to relieve pain which are often inadequate or possess significant liabilities Cultural views and biases also contribute to inadequate pain relief for many people Based on hard science but written in accessible language *PAIN* will enhance understanding of pain and point to a future with reduced suffering from unrelieved pain Pain Fernando Cervero,Troels Staehelin Jensen,2006-05-10 This volume provides a comprehensive accounting of pain and its relation to neurology It is dedicated entirely to the mechanisms and clinical aspects of the subject and provides a wealth of information on the latest neurobiological and clinical data surrounding the topic From discussions of the physiology and pathology of the pain pathways from signaling via spinal cord and supraspinal processing to endogenous pain modulation users will gain an invaluable reference that provides a new understanding of pain related topics including cytokines sex

differences and the autonomic nervous system Practicing clinicians internists surgeons and those in the fields of psychiatry and gerontology will gain a greater understanding of this challenging topic with chapters that deal extensively with peripheral and central pain conditions including specific disorders such as fibromyalgia whiplash psychiatric diseases dementia and even cancer In addition treatments for neuropathic pain are also thoroughly presented and discussed A comprehensive guide to the topic of pain and its relation to neurology Invaluable information on specific topics of interest including discussions of pain and its implications for related diseases and conditions such as fibromyalgia whiplash and even psychiatric disorders Treatment protocols for neuropathic pain and patient care
