Understanding People Why We Long For Relationship:

Understanding People Lawrence J. Crabb, Larry Crabb, 1987 An alternative model for biblical counseling grounded on the authority of Scripture is given in this book It provides a framework for understanding people and their problems which emerges from the biblical teaching that we bear the image of God and that we are fallen *Understanding People* Lawrence J. Crabb, 2013 *New Understandings of Twin Relationships* Barbara Klein, Stephen A. Hart, Jacqueline M. Martinez, 2020-12-23 *New Understandings of Twin Relationships* takes an experience based approach to exploring how twin attachment and estrangement are critical to understanding the push and pull of closely entwined personal relationships Based on the research expertise of each of the authors all identical twins in their own right and vignettes from twins across the globe this book describes the inner workings of the twin world showing how the twin world creates experiences that are often more intense and intricately textured than those in the singleton world Chapters debunk myths surrounding twinship and analyze the developmental stages of the twin relationship as well as the effect of being a twin on one's mental health from different perspectives The authors articulate how attachment separation anxiety loneliness estrangement and the subjective experience of the twin and non twin other impact behavior thinking and feeling Through its careful study of the many psychological challenges that twins face throughout their lifetime this text will help psychologists scholars clinicians and twins themselves attain a deeper understanding of all interpersonal relationships *Doing Therapy with Intercultural Couples* Sunita Noronha, 2022-04-28 Marital concord between couples from different racial and ethnic backgrounds is an issue that needs serious attention to bridge the vast chasms America welcomes people from all over the world People of all religions and ethnic backgrounds come here to study and migrants arrive here to work Interracial marriages are common but the radically different background of each couple can create discords and prove to be bumps on the highway of conjugal life This can have serious repercussions on the offspring and on the couple and their lives as well This book seeks to investigate how cultural realities can be addressed within intercultural premarital couples counseling Using a cultural focus approach couples stories around their particular culture and relationship were analyzed Themes related to relationship family and social ties and parenting bi cultural and bi racial children were examined Issues of religious and social influence money race ethnicity extended family immigration and biases in family of origin are explored as are roles and responsibilities communication respect trust and gender stereotyping The book adopts a pastoral theological approach in working towards a deeper understanding of premarital relationships of partners who represent cultural difference and diversity In conclusion recommendations to therapists and care givers for counseling intercultural couples are made **Relational Spirituality** Todd W. Hall, 2021-05-25 Human beings are fundamentally relational we develop heal and grow through relationships Integrating insights from psychology and theology Todd W Hall and M Elizabeth Lewis Hall present a definitive model of spiritual transformation based on a relational paradigm showing how transformation works practically in the context of

relationships and community **Nature and Nurture in Personality and Psychopathology** Joel Paris, 2022-02-17

Psychiatry and clinical psychology have long been divided about the roles of nature and nurture in the pathways to psychopathology. Some clinicians offer treatment almost entirely based on neuroscience. Some psychologists offer psychotherapies almost entirely based on the impact of environmental stressors. Paris argues for a balanced middle ground between nature and nurture in human development. This book reviews and integrates research showing that the key to understanding the development of mental disorders lies in interactions between genes and environment. It explores why personality is a key determinant of how people respond to stress, functioning as a kind of psychological immune system. This model represents a shift from overly simple and reductionistic constructs based primarily on biological risks or on psychosocial risks in development. Instead, it offers a complex and multivariate approach that encourages a broader approach to treatment. This book is essential for all mental health clinicians who are interested in understanding the roles of nature and nurture in the development of psychopathology.

Post-Punk Perception Edmund Wong, 2013-07

Growing up in Singapore in the 80s has been challenging. I didn't know much about life or economy. I didn't know what I wanted to do apart from playing. I know I had to study and get a job. In school, we had to write composition about our profession when we grow up. I had never wanted to be a philosopher, let alone writing about social philosophy. It is just that growing up with a single parent is tough. It is tougher when she is uneducated and I had to learn most things by myself. After my National Service, I decided to further studies. That was when I was exposed to philosophy and psychology in the UK. After graduation in 1999 with a degree in Electronics, I came back home to resume my National Service. I disrupted it and had about 2 months left. The life in UK exposed me to something that I did not notice when growing up in Singapore. I find the local social scene unsatisfactory. They are Confucians, Muslims, Christians, freethinkers, and humanists. Most of the time they are preoccupied with how to earn more money. Religion does not give me the fulfillment that it promised. In addition, most were based on Singaporeans' interpretation of the Bible and Buddhism's dharma. Most times I feel that everything that Singaporeans do has got to do with wealth creation or at least with the expenditure of it. It ends up like what Pope Francis referred to as the cult of money. Organised religion involves more fear mongering than cultivating an inner grace and peace. Hence, this book is about how I relate an ancient thinker's ethics, Aristotle, to the present day. I find Aristotle's ethics to most suit my needs as a man and lover. It does not pretend to be more than what it seeks: the golden mean. It does require us to think and explore the values to find balance and achieve wisdom with intellectual and moral virtues. I also find other philosophers, French or not, particularly insightful and thought provoking. They offer me explanation and exploration on subjects like love, sex, and death. Freudian psychoanalysis are also very penetrating in their findings and insights. Moreover, I needed some contemporary psychological theory, not in-depth psychoanalysis, to back Aristotle's model of ethics, intellectual and moral virtues. Hence, the psychological background of my book. I got acquainted with these psychological theories when I was preparing myself to be a financial

consultant I later found out more about them and they became useful in my work and life Hence I would like to share it with people in Asia so that they can ask the right kind of questions in life in order to learn more about themselves and the social milieu they are living in Because everyone of us are affected by the social sciences politics economics and sociology This book will I hope allow us to understand why we are irrational and how we can make rational changes through reasonings in their life and achieving eudaimonia My wish is simply to share what I enjoy doing apart from creating useful ideas to improve the world Through my book I hope to make others understand religion science and philosophy and how they play an increasingly integral part in the Asian century
