## **Understanding World Christianity The Vision And Work Of Andrew F Walls:**

**Understanding World Christianity** William R. Burrows, Mark R. Gornik, Janice A. McLean, 2011 This work introduces Walls's work and explores its wide ranging implications for the understanding of history mission the formative place of Africa in the Christian story and the cross cultural transmission of faith [The Palgrave Handbook of Christianity in Africa from Apostolic Times to the Present](#) Andrew Eugene Barnes, Toyin Falola, 2024-03-07 This comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular historical moments It therefore grants voice to the various strands of African Christianity on their own terms and offers scholarly study of what these voices teach us about how the world's most adhered to religion is practiced and understood on the continent of Africa

**World Christianity** Lalsangkima Pachuau, 2018-07-17 Christianity is vibrant and growing in the non western majority world and Christianity is changing as a result Pachuau surveys the current trending approaches to recognizing and investigating world Christianity and explores the salient features of the demographic changes that mark a measurable shift in the center of gravity from the northwest part of the globe to the southern continents This shift is not just geographical World Christianity is ultimately about the changing and diversifying character of Christianity and a renewed recognition of the dynamic universality of Christian faith itself Christianity is a shared religion in that people of different cultures and societies make it their own while being transformed by it Christianity is translatable and adaptable to all cultures while challenging each with its transformative power Pachuau also charts the theological reestablishment of the missionary enterprise founded on understandings of God's mission in the world mission Dei a mission of cross cultural gospel diffusion for missionary advocates in the majority world but one of near neighbor missional engagement for the contagious Charismatic Christianity of the majority world This book is both a descriptive study and a thoughtful analysis of world Christianity's demographics life representation and thought The book also gives an account of the historical emergence of World Christianity and its theological characteristics using a methodology that stresses the productive tension between the universal and particular in understanding a fundamentally adaptable Christian faith

**World Christianity**, 2020-12-15 World Christianity publications proliferate but the issue of methodology has received little attention World Christianity Methodological Considerations addresses this lacuna and explores the methodological ramifications of the World Christianity turn In twelve chapters scholars from various academic backgrounds anthropology religious studies history missiology intercultural studies

theology and patristics as well as of multiple cultural and national belongings investigate methodological issues e.g. methods use of sources choosing a unit of analysis terminology conceptual categories relevant to World Christianity debates In a closing chapter the editors Frederiks and Nagy converge the findings and sketch the outlines of what they coin as a World Christianity approach a multidisciplinary and multiple perspective approach to study Christianity ies plurality and diversity in past and present      **The Oxford Handbook of Mission Studies** Kirsteen Kim, Knud Jørgensen, Alison

Fitchett-Climenhaga, 2022-04-18 The Oxford Handbook of Mission Studies represents more than a century of scholarship related to the theology history and methodology of the propagation of Christian faith and the engagement of Christians with cultures religions and societies worldwide It contains more than 40 articles by experts from different disciplinary and ecclesial perspectives who are from all continents It not only offers a broad overview of key approaches and issues in mission studies but it also highlights current trends and suggests future developments The Handbook builds on renewed interest in mission studies this century generated by recent key statements on mission from ecumenical evangelical Catholic and Orthodox sources and by a spate of academic works on the topic Western church leaders now apply insights from foreign missions such as inculturation liberation interfaith work and power encounter to today's multicultural societies Meanwhile there are new initiatives in mission from the Majority World where most Christians live so that sending is not only from the west to the rest but from everywhere to everywhere Therefore this volume aims to reflect the voices of the receivers of mission as well as its protagonists and to raise awareness of new movements In a time of growing recognition of religions more generally this work examines and theorizes the missional dimensions of the world's largest religion its agendas growth outreach role in public life effect on cultures relevance for development and its approaches to other communities      **African**

**Christian Theology, Volume 1, Number 1, March 2024** Joshua Robert Barron, 2024-07-11      **Migration and Public Discourse in World Christianity** Afe Adogame, Raimundo C. Barreto, Wanderley Pereira da Rosa, 2019-11-05 Although humans have always migrated the present phenomenon of mass migration is unprecedented in scale and global in reach Understanding migration and migrants has become increasingly relevant for world Christianity This volume identifies and addresses several key topics in the discourse of world Christianity and migration Senior and emerging scholars and researchers of migration from all regions of the world contribute chapters on central issues including the feminization of international migration the theology of migration south south migration networks the connection between world Christianity migration and civic responsibility and the complicated relationship between migration identity and citizenship It seeks to give voice particularly to migrant narratives as important sources for public reasoning and theology in the 21st century      **How to Study Global Christianity** Jason Bruner, 2022-10-16 This book provides students with an accessible yet critically oriented introduction to the foundational methods and themes in Global Christianity scholarship over the past 40 years While the field of Global Christianity is itself interdisciplinary it largely has not reflected upon the various disciplines of which it is

comprised In addressing different methods that have constituted this field of scholarship Jason Bruner draws students attention to the ways in which these elements have worked together and what the implications for their use have been in the past and might be in the future In addition to identifying themes within the discourse this book offers a survey of where the field has been what its analytical priorities are and how future scholars might develop new research projects and trajectories in light of the its history      **World Christianity** Hanciles, Jehu, J.,2021-11-17 Provides a critical reassessment of the study of world Christianity that connects historical developments to current debates and new trajectories      Toward an Anabaptist-Pentecostal Vision Joseph C. L. Sawatzky,2023-03-28 What does Pentecostalism the fastest growing Christian expression worldwide have to do with Anabaptism whose Mennonite adherents have sometimes been called the quiet in the land In this groundbreaking study Joseph C L Sawatzky explores a mission history of North American Mennonites working with African Initiated and Pentecostal type churches in southern Africa illuminating points of divergence and convergence between Anabaptist and Pentecostal streams Placing testimonies of African and North American participants in this history within a broader biblical and theological framework this study proposes bases for an emerging Anabaptist Pentecostal vision with implications for the church its leadership and its witness in the world This lively interdisciplinary study will interest students of mission interculturality and the Christian faith itself
