Voyages In World History Complete Brief:

World History Steven Wallech, Touraj Daryaei, Craig Hendricks, Anne Lynne Negus, Peter P. Wan, Gordon Morris Bakken, 2013-01-22 *World History A Concise Thematic Analysis* presents the highly anticipated second edition of the most affordable and accessible survey of world history designed for use at the college level This text offers a comparative analysis of great civilizations of Eurasia Africa and the Americas in an engaging narrative that contextualizes history instead of drowning students in a sea of facts Themes addressed include population dynamics food production challenges disease history warfare and others Instructor resources are available online for this text This new edition of *World History A Concise Thematic Analysis* features a newly designed interior organization to enhance navigation and comprehension of the material An instructors test bank is available online *Teaching Global History* Alan J. Singer, 2012-04-27 *Teaching Global History* challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it **Empire in Asia: A New Global History** Jack Fairey, Brian P. Farrell, 2018-06-28 Asia was the principle focus of empire builders from Alexander and Akbar to Chinggis Khan and Qianlong and yet until now there has been no attempt to provide a comprehensive history of empire in the region *Empire in Asia* addresses the need for a thorough survey of the topic This volume traces the evolution of a constellation of competing empires in Asia from the 13th through to the 18th centuries Separate chapters will describe the history and characteristic features of imperial regimes in each major sub region of Asia from the Ottomans and Safavids in the West Romanovs in the North Mughals in the South the Mongols their successors in Inner Asia to the Ming and Qing Dynasties in the East The contributors address common questions in considering the various empires including How did imperial Asian states understand themselves and their place in the world How were these empires constructed and how did they attain such prominence To what extent did imperial repertoires of rule differ The two volumes of *Empire in Asia* offer a significant contribution to the theory and practice of empire when considered globally and comparatively and are essential reading for all students and scholars of global imperial and Asian history **Inquiry-Based Lessons in World History** Jana

Kirchner, Andrew McMichael, 2021-09-03 Spanning the time period from 15 000 BCE to 1500 CE Inquiry Based Lessons in World History Vol 1 focuses on creating global connections between people and places using primary sources in standards based lessons With sections on early humans the ancient world classical antiquity and the world in transition this book provides teachers with inquiry based ready to use lessons that can be adapted to any classroom and that encourage students to take part in the learning process by reading and thinking like historians Each section contains chapters that correspond to the scope and sequence of most world history textbooks Each inquiry lesson begins with an essential question and connections to content and literacy standards followed by primary source excerpts or links to those sources Lessons include step by step directions incorporate a variety of literacy strategies and require students to make a hypothesis using evidence from the texts they have read Grades 7 10

The Sea in World History Stephen K. Stein, 2017-04-24 This two volume set documents the essential role of the sea and maritime activity across history from travel and food production to commerce and conquest In all eras water transport has served as the cheapest and most efficient means of moving cargo and people over any significant distance Only relatively recently have railroads and aircraft provided an alternative Most of the world's bulk goods continue to travel primarily by ship over water Even today 95 percent of the cargo that enters and leaves the United States does so by ship Similarly people around the world rely on the sea for food and in recent years the sea has become an important source of oil and other resources with the longterm effects of our continuing efforts to extract resources from the sea further highlighting environmental concerns that range from pollution to the exhaustion of fish stocks This chronologically organized two volume reference addresses the history of the sea beginning with ancient civilizations 4000 to 1000 BCE and ending with the modern era 1945 to the present day Each of the eight chapters is further broken down into sections that focus on specific nations or regions offering detailed descriptions of that area of the world and shorter entries on specific topics individuals and events The book spans maritime history covering major seafaring peoples and nations famous explorers travelers and commanders events battles and wars key technologies including famous ships important processes and ongoing events such as piracy and the slave trade and more Readers will benefit from dozens of primary source documents ranging from ancient Egyptian tales of seafaring to texts by renowned travelers like Marco Polo Zheng He and Ibn Battuta that provide firsthand accounts from the age of discovery as well as accounts of battle from World War I and II and more modern accounts of the sea

Doing Global History Roland Wenzlhuemer, 2019-10-31 The field of Global History has experienced an unprecedented boom in the last two decades and carved itself deeply into the practice of historical research Despite this its conceptual foundations have rarely been explored This introduction to what Global History is brings together theory and practice with 6 key concepts delivered through 6 accessible case studies Re evaluating the central concerns and key approaches in the field it offers an up to date discussion of the foundations of Global History its guiding questions and principal methods at work Doing Global History offers students valuable insights into the ways general

concepts can be used and applied when doing historical research The 6 concepts connections actors structures space time and transit and their accompanying examples will not only help readers to get a solid grasp of what global history means but will stimulate further engagement in the field Wenzlhuemer successfully shows that global history is best considered as a perspective not a theory or paradigm and guides the reader through ways it can be used in practice to draw new and exciting conclusions Tailored for classroom and student use this book will be invaluable to advanced undergraduates and postgraduates of Global History
