What Your Second Grader Needs to Know E.D. Hirsch, Jr., 2009-07-29 From the Introduction What kind of knowledge and skills can your child be expected to learn in second grade at school How can you help your child at home These are questions that we try to answer in this book It presents the sort of knowledge and skills in literature reading and writing history and geography visual arts music mathematics and science that should be at the core of a challenging second grade education Because children and localities differ greatly across this big diverse country so do second grade classrooms But all communities including classrooms require some common ground for communication and learning In this book we present the specific shared knowledge that hundreds of parents and teachers across the nation have agreed upon for American second graders This core is not a comprehensive prescription for everything that every second grader needs to know Such a complete prescription would be rigid and undesirable But the book does offer a solid common ground that will enable young students to become active successful learners in their classroom community and later in the larger communities we live in town state nation and world

BONUS This edition includes an excerpt from What Your Third Grader Needs to Know *The Schools We Need* E.D. Hirsch, Jr., 2010-02-17 This paperback edition with a new introduction offers a powerful compelling and unassailable argument for reforming America's schooling methods and ideas by one of America's most important educators and author of the bestselling *Cultural Literacy* For over fifty years American schools have operated under the assumption that challenging children academically is unnatural for them that teachers do not need to know the subjects they teach that the learning process should be emphasized over the facts taught All of this is tragically wrong Renowned educator and author E D Hirsch Jr argues that by disdaining content based curricula while favoring abstract and discredited theories of how a child learns the ideas uniformly taught by our schools have done terrible harm to America's students Instead of preparing our children for the highly competitive information based economy in which we now live our schools practices have severely curtailed their ability and desire to

learn With an introduction that surveys developments in education since the hardcover edition was published The Schools We Need is a passionate and thoughtful book that will appeal to the millions of people who can't understand why America's schools aren't educating our children What Your Sixth Grader Needs to Know E.D. Hirsch, Jr., 2007-06-26 What should your child learn in the sixth grade How can you help him or her at home This book answers these important questions and more offering the specific shared knowledge that thousands of parents and teachers across the nation have agreed upon for American sixth graders Featuring sixteen pages of full color illustrations a bolder easier to follow format and a thoroughly updated curriculum What Your Sixth Grader Needs to Know Revised Edition is designed for parents and teachers to enjoy with children Hundreds of thousands of children have benefited from the Core Knowledge Series This revised edition gives a new generation of sixth graders the advantage they need to make progress in school today and to establish an approach to learning that will last a lifetime Discover Favorite Poems old and new from Edgar Allan Poe's classic The Raven to Maya Angelou's Woman Work Literature from around the world including Homer's epics the Iliad and the Odyssey Shakespeare's Julius Caesar and Mark Twain's The Prince and the Pauper Learning About Language the rules of written English including the four kinds of sentences common English sayings and phrases plus an introduction to Greek and Latin roots History and Geography world history from ancient Greece and the fall of the Roman Empire to the Enlightenment and the French Revolution American history of the post Civil War era including the Industrial Revolution immigration urbanization and reform Visual Arts a brief history of art stretching from the classical period through the Renaissance Baroque and Romantic periods all the way to the age of realism with full color reproductions and discussions of great works by artists such as El Greco Rembrandt and Winslow Homer Music understanding and appreciating music including musical notation chords and scales plus biographies of great composers such as Handel Haydn Mozart Beethoven and Chopin Math challenging lessons ranging from probability and statistics geometry ratios and proportions to basic pre algebra Science fascinating discussions of plate tectonics oceans astronomy the environment the human body and the immune system plus short biographies of great scientists such as Marie Curie **Lessons Learned from FIPSE Projects IV** Dora Marcus, 2000 *Lessons Learned from FIPSE Projects*, 2000 **Alternative Schools** Brenda Edgerton Conley, 2002-11-22 An examination of the growth and development of alternative schools in American society and their role in the public school environment In *Alternative Schools A Reference Handbook* educator Brenda Edgerton Conley surveys the emerging alternatives to our conventional educational system a system that is not only costly but ineffective for many children In a resource aimed at a broad audience school administrators politicians and most important parents Conley offers both a historical and a present day perspective on alternative educational programs What sets the alternative education movement apart she argues is its acknowledgment that we all learn differently That knowledge has given rise to an explosion of exciting alternatives from open schools to home schooling from charter schools to church schools These alternative schools are smaller and less bureaucratic more

responsive to the community and more receptive to change
