

"This is a 'must read' book—
a searing indictment of an unjust international economic order...."
—Archbishop Desmond M. Tutu, Nobel Peace Laureate

When Corporations Rule the WORLD

David C. Korten

When Corporations Rule The World

Wayne Visser

When Corporations Rule The World:

When Corporations Rule the World David C. Korten, 2001 When Corporations Rule the World has become a modern classic Korten's warnings about the growing global power of multinational corporations seem prophetic today This new edition has been revised throughout to make it more accessible to the general reader and features a new introduction a new epilogue and three new chapters While Korten points out that the multinationals are if anything more powerful now than they were when he first wrote the book he also offers reason for hope the growth of the international Living Democracy movement opposing corporate rule The new material in the book Documents the consolidation since 1995 of financial and corporate power at the expense of democracy people communities and the planet Looks in depth at the nature and cultural underpinnings of the burgeoning Living Democracy movement to resist corporate power Offers a vision of a what a civil society grounded in life centered values rather than immediate financial gain might look like *When Corporations Rule the World* David C. Korten, 2015-06-29 Our Choice Democracy or Corporate Rule A handful of corporations and financial institutions command an ever greater concentration of economic and political power in an assault against markets democracy and life It's a suicide economy says David Korten that destroys the very foundations of its own existence The bestselling 1995 edition of *When Corporations Rule the World* helped launch a global resistance against corporate domination In this twentieth anniversary edition Korten shares insights from his personal experience as a participant in the growing movement for a New Economy A new introduction documents the further concentration of wealth and corporate power since 1995 and explores why our institutions resolutely resist even modest reform A new conclusion chapter outlines high leverage opportunities for breakthrough change **When Corporations Rule the World** David C. Korten, 2015-06-29 Our Choice Democracy or Corporate Rule A handful of corporations and financial institutions command an ever greater concentration of economic and political power in an assault against markets democracy and life It's a suicide economy says David Korten that destroys the very foundations of its own existence The bestselling 1995 edition of *When Corporations Rule the World* helped launch a global resistance against corporate domination In this twentieth anniversary edition Korten shares insights from his personal experience as a participant in the growing movement for a New Economy A new introduction documents the further concentration of wealth and corporate power since 1995 and explores why our institutions resolutely resist even modest reform A new conclusion chapter outlines high leverage opportunities for breakthrough change The Great Turning David C. Korten, 2006-05-14 The international bestselling author shares a compelling devastating and ultimately profoundly hopeful guide to navigating our global future Van Jones Executive Director The Ella Baker Center for Human Rights David Korten argues that corporate consolidation of power is merely a contemporary manifestation of what he calls Empire the organization of society by hierarchies of domination Increasingly destructive on every level the way of Empire is leading to environmental and social collapse We now face a mounting perfect storm of climate change peak oil and the financial

instability inherent in an unbalanced global trading system In *The Great Turning* Korten makes the case that we must change course and choose a new future as a conscious collective act We cannot avoid the unraveling We can however turn a potentially terminal crisis into an epic opportunity to bring forth a new era of Earth Community grounded in the life affirming values of ecological integrity economic justice community and democracy *The Great Turning* is an essential resource for those who understand this need and are prepared to engage what Thomas Berry calls the Great Work

[The Top 50 Sustainability Books](#) Wayne Visser,2017-09-08 This unique title draws together in one volume some of the best thinking to date on the pressing social and environmental challenges we face as a society These are the Top 50 Sustainability Books as voted for by the University of Cambridge Programme for Sustainability Leadership s alumni network of over 3 000 senior leaders from around the world In addition to profiles of all 50 titles many of the authors share their most recent reflections on the state of the world and the ongoing attempts by business government and civil society to create a more sustainable future Many of these authors have become household names in the environmental social and economic justice movements from Rachel Carson Ralph Nader and E F Schumacher to Vandana Shiva Muhammad Yunus and Al Gore Others such as Aldo Leopold Thomas Berry and Manfred Max Neef are relatively undiscovered gems whose work should be much more widely known By featuring these and other seminal thinkers *The Top 50 Sustainability Books* distils a remarkable collective intelligence one that provides devastating evidence of the problems we face as a global society yet also inspiring examples of innovative solutions it explores our deepest fears and our highest hopes for the future It is a must read for anyone who wants to tap into the wisdom of our age

Growth Growth Growth Julian Cobbing,2024-04-11 *Growth Growth Growth* retells history as a succession of pivotal crises linked to economic growth Beginning with agriculture ten thousand years ago each crisis led to an impasse until human ingenuity devised a technical solution to fix it These solutions included the alphabet paper clocks guns the printing press the steam engine the petrol engine electricity nitrogen fertilizer and the computer Each solution however played a part in the next crisis Growth driven crises led to the world wars of the first half of the twentieth century including the atrocities of Stalin Hitler and Hiroshima The brief golden age of capitalism of the 1950s and 1960s gave way to the ultra corporate capitalism that in one variant or another is now the global economic system Julian Cobbing s lively account exposes the historical roots of our converging problems the destruction of the environment the massacre of other species the running down of oil reserves global heating and the nuclear threat to all of us This time there is no technical solution since we are devouring the Earth s finite resources Cobbing reminds us that we are just one species in a planetary life system which could dispense with us if we are not needed

Promoting Participation: Law Or Politics? David Campbell,2012-07-23 The authors argue for constitutional reform which would facilitate British citizens effective participation in the making of the decisions that set the basic pattern of their collective life They assert that this failure of the British Constitution is unacceptable

The Governance of Corporate Groups Janet Dine,2000-06-05 Starting from a

discussion of the theoretical underpinning of the place companies occupy in society this book explores the consequences of adherence to free market contractualist theory including the lack of regulatory control of a sufficiently robust nature Professor Dine comments on the absence of a concept of governance of groups from a comparative perspective and considers the consequences of this absence for the conflict of laws In particular she highlights the tragic consequences of globalization by transnationals including polarization of income and environmental damage and suggests a possible legal framework to prevent future damages

Companies, International Trade and Human Rights Janet Dine, 2005-02-24 Originally published in 2005 this book focuses on the role of corporations within the trading system and the complex relationships between corporations nation states and international organisations The actions and motives that drive corporations are considered as well as the structure of the international trading system Remedial devices such as Codes of Conduct and Human Rights instruments are assessed for effectiveness The book seeks reasons for what is a growing understanding that international trading regimes are not meeting objectives found in many international agreements including both the international trade agreements themselves WTO GATT TRIPS etc and human rights instruments In particular it is clear that the prevalence and severity of poverty is not being adequately addressed This work sets out to investigate the role played by companies in this failure in the globalisation of trade to realise its aims in particular the failure to achieve the minimum of basic rights the right to food

Deliberative Democracy, Political Legitimacy, And Self-determination In Multi-cultural Societies Jorge Valadez, 2018-03-09 Most foundational works in political philosophy have made fundamentally false and far reaching assumptions concerning the culturally homogeneous character of the polity Deliberative Democracy Political Legitimacy and Self Determination in Multicultural Societies provides a much needed corrective to conventional accounts of the normative foundations of the state by reconceptualizing some of the fundamental issues in political theory from a perspective that recognizes the culturally pluralistic character of contemporary democracies Among the issues considered are democratic deliberation in multicultural societies the justification and function of political communities the nature of self determination the justification of cultural rights and the moral rationale for regional self governance and secession This work is suitable for graduate and upper division undergraduate courses in political philosophy and political science as well as the lay reader interested in understanding the major sources of conflict and instability in democratic societies

The Captivating World of Kindle Books: A Comprehensive Guide Revealing the Advantages of Kindle Books: A Realm of Ease and Versatility Kindle books, with their inherent mobility and ease of access, have freed readers from the constraints of hardcopy books.
