When You Rise Up A Covenantal Approach To Homeschooling:

When You Rise Up Robert Craig Sproul, 2004 Who should teach our children What should they be taught What teaching methods should be employed A homeschooling advocate gives answers that profit all parents **The New Covenant as a Paradigm for Optimal Relations** Pablo Polischuk, 2016-10-07 The New Covenant as a Paradigm for Optimal Relations regards the New Covenant primarily as a gracious and merciful redemptive deal springing from God's unilateral unconditional and proactive initiative The New Covenant is adopted as representing both a salvific and an exemplary paradigm that displays God's gracious and merciful ways toward his children Ten discrete yet interwoven principles are extracted from interpreted and abstracted from Scriptures pertaining to the promised New Covenant These principles apply to those who as dearly beloved children are invited to imitate God's loving ways God's manner of love defines the foundational basis from which the author derives and elaborates the propositions that guide the considerations pertaining to thoughts feelings motivations and behaviors that enter into play in relational transactions In terms of style an architectural design permeates the content of this book offering and encompassing a metacognitive view of God's covenantal ways a top down perspective that applies to bottom up endeavors of relational nature The challenges posed by our cultural postmodern trends devoid of absolute principles and lacking a moral compass are countered and addressed by the author in insightful fashion offering theologically based guidelines integrated to sound psychological principles applicable to psychotherapeutic and counseling endeavors as well as to pastoral care Why We Homeschool Adam T. Calvert, 2018-07-19 When the topic of homeschooling comes up there often seem to be various assumptions as to why we homeschool our children which are simply wrong or at the most inadequate Yes the government schools have bullies yes the government schools might be bigger targets for armed shootings and yes the government schools even the ones in good school districts have kids or teachers who will teach our children language or experiences that we would rather them not learn that early in life or at all And while all those things are true and good reasons to educate our children at home even if those problems were corrected we and many other parents would still be committed to homeschooling our children Why The purpose of this book is to answer that question and to answer it from the Scriptures **8 Great Smarts for Homeschoolers** Tina Hollenbeck, 2021-08-03 Kids don't just learn one way and that matters a lot for homeschool parents One benefit of a home education is a curriculum designed to fit each student But that means knowing how your child learns It's up to the teacher to figure out the best way to reach each one Based on the 8 Smarts identified by Kathy Koch word logic picture music body nature people and self 8 Great Smarts for Homeschooling Families tailors these ideas to the unique setting of the home classroom Tina Hollenbeck a leader in the homeschool community applies the 8 Smarts to each division of a complete curriculum Yet the real benefit of homeschooling is personal relationships Hollenbeck shows that when parents know their kids multiple intelligences it produces a healthy homeschool dynamic So don't try to teach in the dark Know your kid's smarts then watch them truly learn

Home Schooling Frederick M. Lawrence, 2007 From left to right on the political spectrum there is at least one note of agreement the nation's school system has not delivered universal quality education Accordingly debate has raged over how to rectify this situation Should the government increase funding encourage privatisation some of both Another option though has emerged and is seemingly gaining popularity home schooling Citing both substandard education and displeasure with school environments and curricula many parents have decided to teach their own children Supporters say it is well within their rights to raise their children as they see fit and that at home learning is superior to the public system Detractors claim that home schooled children are deprived of social interaction and the broad based education provided by the system Neither side wants to cede ground making the issue of home schooling an integral part of a wider national debate on education In this book the specific topic of home schooling is presented from all relevant sides to give a complete picture of the present status of the issue and its potential for future resolution Following this overview is a thorough and carefully selected bibliography of literature about home schooling from all viewpoints Easy access to this important resource is then provided via author title and subject indexes Encyclopedia of Christian Education George Thomas Kurian, Mark A.
