The Model 3022 Instant Recall Recorder is a modular, solid-state audio recorder designed for use in public safety communications centers. It records and stores the last several telephone calls or radio transactions from an operator's position. This allows the operator to retrieve stored calls easily without leaving their position to go to the logging recorder. Recording is done into digital memory, eliminating mechanical failures while providing instant recall. The Model 3022 stores up to 64 minutes of conversation at standard sample rate, or up to 128 minutes at reduced sample rate.

SPACE SAVINGS

Zetron's modular PSAP & dispatch products provide a high degree of functionality in a small space because several modules may be mounted in the space of a single panel. The Model 3022 requires only one quarter of a 5.25" x 19" panel space. Its unique modular design allows it to be directly mounted into existing Motorola CENTRACOM® Series II console panels by replacing two unused modules in a channel control panel. For use in other consoles, the Model 3022 may be mounted in the rack adapter or may be mounted in the desk adapter.

RECORDING CONTROL

Recording is controlled automatically and requires no operator action. Even while playing back an older message, recording of a new message may take place. Recording can be controlled by several methods: voice-operated (VOK),
