Understanding The High Functioning Alcoholic Breaking The Cycle And Finding Hope:

Understanding the High-Functioning Alcoholic Sarah A. Benton, 2009-02-27 Who is the typical alcoholic among the 125 million living in the United States now? Many if not most of us when asked that question would envision a skid row bum or someone at least out of work or with little education locked into a low skill low paying job. But that is not accurate according to the results of a national study released in June 2007 by the National Institutes of Alcohol Abuse and Alcoholism. The NIAAA determined that alcoholics in the United States really fall into five subtypes including nearly 20 percent who are highly functional alcoholics well educated with good incomes. They include corporate presidents, powerful politicians, police, lawyers, doctors, scientists, and other highly skilled, highly educated people who are middle to high income and by most accounts successful. In this unprecedented book, mental health counselor Sarah Benton takes us into the worlds and minds of so-called high functioning alcoholics to understand how people so intelligent and achievement oriented get drawn into states in which they secretly cannot control their liquor consumption but still manage to excel in their careers. The book includes a look at celebrity alcoholics like singer Eric Clapton and actor/comedian Robin Williams as well as alcoholics in high positions including Chris Albrecht, former Chairman and CEO of HBO. Other high profile people included in this book are Miss USA 2007 Tara Conner and football legend Joe Namath. With her own story of alcoholism and her recovery woven into the text, Benton takes us into the lives and challenges of these well educated and successful people seeking to understand how, when, and why they became addicted as well as the reasons their alcoholism is for most so hard to admit, cope with, and recover from.

Understanding the High-Functioning Alcoholic Sarah Allen Benton, 2010-10-16 With a focus on recovery and treatment, this volume identifies the characteristics, behaviors, and experiences of the high functioning alcoholic and highlights the struggles of those who cannot control their drinking even as they succeed in other areas of their lives.

In these pages, you'll discover how science, society, and industry challenge your power over alcohol and why you are NOT powerless. Why being an adult child of an alcoholic may be affecting your drinking? It's not because of your genes. How to use your own brain to change your relationship with alcohol? It's 100% possible. How to undo urges and beat cravings, changing your desire for alcohol forever? If you want to worry less, not rely on willpower to control your drinking, and to find peace with alcohol, then this book is for you.
