Life and Loss Linda Goldman, 2021-08-04 For decades *Life and Loss* has been the book clinicians have relied on for a full and nuanced presentation of the many issues with which grieving children grapple as well as an honest exploration of the interrelationship between unresolved grief educational success and responsible citizenry This classic edition which includes a new preface from the author brings this exploration firmly into the twenty first century and makes a convincing case that children's grief is no longer restricted only to loss identified children Children's grief is now endemic it is global *Life and Loss* is not just the book mental health professionals need to understand grief in the twenty first century it's the book they need to work with grief in a practical and constructive way

Philosophy in Children's Literature Peter R. Costello, 2012-01-01 This book seeks to join the ongoing interdisciplinary approach to children's literature by means of sustained readings of individual texts by means of important works in the history of philosophy Its inclusion of authors from both various departments philosophy literature religion and education and various countries is an attempt to show how traditional boundaries between disciplines might become more permeable and how philosophy offers important insights to this interdisciplinary critical conversation
This Dying Thing David Payton, 2012-06 The inspiration of this book came from the death of my mother Frances Edith Nix Tolliver She died February 19th 2007 She was born April 24th 1920 I was fortunate enough to have her 56 years of my life We are not raised to die we are raised to live even though the plot from mankind is like they would do sheep cows or chickens although you are cared for to a certain degree you are not going to make it out of this world alive My thought on this is that if we were raised to die there would probably be more tragedy probably be more destruction and chaos and then again maybe not I also agree that because there are enormous amounts of people and quite a few that would like to run the world a certain way we will never unite to a calm and peace that can exist given the right circumstances
