Tree Stands Guard Sunset Password:

The Tree Stands Guard at Sunset Cool Image, 2015-12-17 Want to keep your internet passwords written down but you're worried someone will find them Here's your solution From the outside this book looks like a really awful book of poetry so only the most pretentious wannabe poet would ever be tempted to crack it open Inside however it's page after page where you can write down site addresses log in and user name info passwords and notes for each site you need to store information about You could leave this out on the coffee table and your guests would not want to read it Far better to just put it up on your bookshelf There's nothing on the spine so it really looks like a bad poetry chapbook and the back cover even talks about including poems about Odes to a Tree so even if someone does pull it out they won't open it Your information is safe here Buy this and you're golden
