Christiane Maaß, Isabel Rink

Triangulating Translation Perspectives In Process Oriented Research Benjamins Translation Library:

Triangulating Translation Fábio Alves dos Santos, 2003-01-01 The articles which appear in this volume stem from papers presented in a sub section of the II Brazilian International Translators Forum dedicated to process oriented research in translation The congress s main theme namely Translating the Millennium Corpora Cognition and Cultures is reflected in the seven contributions which aim at fostering the dialogue among translation researchers interested in process oriented investigations This book highlights one of the main axes focusing on the interfaces between cognition and translation and more precisely on the investigation of translation processes from three main vantage points theoretical perspectives empirical investigations and pedagogical applications

Cross-Linguistic Corpora for the Study of Translations Silvia Hansen-Schirra, Stella Neumann, Erich Steiner, 2012-12-06 The book specifies a corpus architecture including annotation and querying techniques and its implementation The corpus architecture is developed for empirical studies of translations and beyond those for the study of texts which are inter lingually comparable particularly texts of similar registers The compiled corpus CroCo is a resource for research and is with some copyright restrictions accessible to other research projects Most of the research was undertaken as part of a DFG Project into linguistic properties of translations Fundamentally this research project was a corpus based investigation into the language pair English German The long term goal is a contribution to the study of translation as a contact variety and beyond this to language comparison and language contact more generally with the language pair English German as our object languages This goal implies a thorough interest in possible specific properties of translations and beyond this in an empirical translation theory The methodology developed is not restricted to the traditional exclusively system based comparison of earlier days where real text excerpts or constructed examples are used as mere illustrations of assumptions and claims but instead implements an empirical research strategy involving structured data the sub corpora and their relationships to each other annotated and aligned on various theoretically motivated levels of representation the formation of hypotheses and their operationalizations statistics on the data critical examinations of their significance and interpretation against the background of system based comparisons and other independent sources of explanation for the phenomena observed Further applications of the resource developed in computational linguistics are outlined and evaluated

Encyclopedia of Language and Linguistics , 2005-11-24 The first edition of ELL 1993 Ron Asher Editor was hailed as the field s standard reference work for a generation Now the all new second edition matches ELL s comprehensiveness and high quality expanded for a new generation while being the first encyclopedia to really exploit the multimedia potential of linguistics The most authoritative up to date comprehensive and international reference source in its field An entirely new work with new editors new authors new topics and newly commissioned articles with a handful of classic articles The first Encyclopedia to exploit the multimedia potential of linguistics through the online edition Ground breaking and International in scope and approach Alphabetically arranged with

extensive cross referencing Available in print and online priced separately The online version will include updates as subjects develop ELL2 includes c 7 500 000 words c 11 000 pages c 3 000 articles c 1 500 figures 130 halftones and 150 colour Supplementary audio video and text files online c 3 500 glossary definitions c 39 000 references Extensive list of commonly used abbreviations List of languages of the world including information on no of speakers language family etc Approximately 700 biographical entries now includes contemporary linguists 200 language maps in print and online Also available online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit www.info.sciencedirect.com The first Encyclopedia to exploit the multimedia potential of linguistics Ground breaking in scope wider than any predecessor An invaluable resource for researchers academics students and professionals in the fields of linguistics anthropology education psychology language acquisition language pathology cognitive science sociology the law the media medicine computer science The most authoritative up to date comprehensive and international reference source in its field The Handbook of Translation and Cognition John W. Schwieter, Li Wei, 2020-01-09 The Handbook of Translation and Cognition is a pioneering state of the art investigation of cognitive approaches to translation and interpreting studies TIS Offers timely and cutting edge coverage of the most important theoretical frameworks and methodological innovations Contains original contributions from a global group of leading researchers from 18 countries Explores topics related to translator and workplace characteristics including machine translation creativity ergonomic perspectives and cognitive effort and competence training and interpreting such as multimodal processing neurocognitive optimization process oriented pedagogies and conceptual change Maps out future directions for cognition and translation studies as well as areas in need of more research within this dynamic field

Telecollaboration in Translator Education Mariusz Marczak, 2023-11-24 This volume provides a comprehensive treatment of telecollaboration as a learning mode in translator education surveying the state of the art exploring its distinctive challenges and affordances and outlining future directions in both theoretical and practical terms The book begins with an overview of telecollaboration and its rise in prominence in today's globalised world one in which developments in technology have significantly impacted practices in professional translation and translator education The volume highlights basic design types and assessment modes and their use in achieving competence based learning outcomes drawing on examples from seven telecollaboration projects In incorporating real life research Marczak draws readers attention to not only the practical workings of different types of projects and their attendant challenges but also the opportunities for educators to diversify and optimize their instructional practices and for budding translators to build competence and better secure their future employability in the language service provision industry This volume will be a valuable resource for students and researchers in translation studies particularly those with an interest in translator education and translation

technology as well as stakeholders in the professional translation industry Handbook of Accessible Communication Christiane Maaß, Isabel Rink, 2024-07-02 Accessible communication comprises all measures employed to reduce communication barriers in various situations and fields of activity Disabilities illnesses different educational opportunities and or major life events can result in vastly different requirements in terms of how texts or messages must be prepared in order to meet the individual needs and access conditions of the recipients of accessible communication This handbook examines and critically reflects accessible communication in its interdisciplinary breadth Current findings proposed solutions and research desiderata are juxtaposed with reports from practitioners and users who provide insights into how they deal with accessible communication and highlight current and future requirements and problems **The Routledge Handbook of Translation, Interpreting and Bilingualism** Aline Ferreira, John W. Schwieter, 2023-01-31 Translation and interpreting can be seen as two special sub types of bilingual communication The field of bilingualism from developmental cognitive and neuroscientific perspectives is highly relevant to Translation and Interpreting Studies The Routledge Handbook of Translation Interpreting and Bilingualism is the first handbook to bring together the related yet disconnected fields of bilingualism and translation and interpreting studies Edited by leading scholars and authored by a wide range of established authorities from around the world the Handbook is divided into six parts and encompasses theories and method the development of translator and interpreter competence and cognitive neuroscientific and social aspects This is the essential guide to bilingualism for advanced students and researchers of Translation and Interpreting studies and key reading on translation and interpreting for those studying and researching bilingualism **Positive Learning in the Age of Information** Olga Zlatkin-Troitschanskaia, Gabriel Wittum, Andreas Dengel, 2017-12-15 While information and communication technology has a vast influence on our lives little is understood about its effects on the way we learn In the Age of Information students consciously or not are learning in diverse formal and informal environments from a broad variety of sources with scientific knowledge competing against unfounded assertions and misinformation and biased data spreading through social and mass media The Positive Learning in the Age of Information PLATO program illustrated by the contributions in this book unites outstanding and highly innovative expertise on the fundamentals of information processing and human learning to investigate a new paradigm of positive learning as a vital morally and ethically oriented approach which is of existential importance to maintaining the civilization standards of a modern society in the digital age

Methodology, Technology and Innovation in Translation Process Research Inger M. Mees, Fabio Alves, Susanne Göpferich, 2009 This volume has been compiled in honour of Arnt Lykke Jakobsen on the occasion of his 65th birthday It contains papers by scholars from many parts of the world working in the fields of translation and interpreting This volume has been compiled in honour of Arnt Lykke Jakobsen on the occasion of his 65th birthday It contains papers by scholars from many parts of the world working in the fields of translation and interpreting with a particular emphasis on translation

process studies The contributions are grouped into four main sections methodological issues computer assistance eye tracking and lastly the roles of precision strategies and quality assessment in translation

Intralingual Translation of British Novels Linda Pillière, 2021-04-22 Shortlisted for the ESSE 2022 Book Awards Shortlisted for the 2022 SAES AFEA Research Prize Building on an upsurge of interest in the Americanisation of British novels triggered by the Harry Potter series this book explores the various ways that British novels from children's fiction to travelogues and Book Prize winners have been adapted and rewritten for the US market Drawing on a vast corpus of over 80 works and integrating the latest research in multimodality and stylistics Linda Pillière analyses the modifications introduced to make British English texts more culturally acceptable and accessible to the American English reader From paratextual differences in cover illustrations typeface and footnotes to dialectal changes to lexis tense syntax and punctuation Pillière explores the sociocultural and ideological pressures involved in intralingual translation and shows how the stylistic effects of such changes including loss of meaning voice rhythm and word play often result in a more muted American edition In doing so she reveals how homing in on numerous small adjustments can provide fascinating insights into the American publishing process and readership

Where Humans Meet Machines Amy Neustein, Judith A. Markowitz, 2013-06-22 Editors Amy Neustein and Judith A. Markowitz have recruited a talented group of contributors to introduce the next generation of natural language technologies to resolve some of the most vexing natural language problems that compromise the performance of speech systems today This fourteen chapter anthology consists of contributions from industry scientists and from academicians working at major universities in North America and Europe They include researchers who have played a central role in DARPA funded programs and developers who craft real world solutions for corporations This anthology is aimed at speech engineers system developers computer scientists AI researchers and others interested in utilizing natural language technology in both spoken and text based applications
