Luo, Xiaochu Zhang, Nan Li, 2022-02-08 Zoltan Kodaly Michael Houlahan, Philip Tacka, 2019-06-11 First Published in 1998
This book serves as the key to study of Kodaly for an English speaking audience The volume presents a biographical outline a catalog of his compositions according to genre and over 1 400 annotated primary and secondary sources Three indexes cover listings by author and title Kodaly s compositions and proper names Primary sources include Kodaly s own essays articles lectures on folk music and art music letters and other documents and his folk music collections and facsimiles Secondary sources include biographical and historical studies theoretic analytic stylistic and aesthetic studies of his music discussions of folk music influences and art music influences studies of his compositional process and discussions of the Kodaly concept Doctoral dissertations and Masters theses pertaining to Kodaly are included in this guide This annotated topically organized book is the first to draw together the most important primary and secondary bibliographic sources that cover his varied activities as composer ethnomusicologist linguist and educator *Library of Congress Subject Headings* Library of Congress, 2003 The String Quartet, 1750-1797 Mara Parker, 2017-07-05 The second half of the eighteenth century witnessed a flourishing of the string quartet often represented as a smooth and logical progression from first violin dominated homophony to a more equal conversation between the four voices Yet this progression was neither as smooth nor as linear as previously thought as Mara Parker illustrates in her examination of the string quartet during this period Looking at a wide variety of string quartets by composers such as Pleyel Distler and Filtz in addition to Haydn and Mozart the book proposes a new way of describing the relationships between the four instruments in different works Broadly speaking these relationships follow one of four patterns the lecture the polite conversation the debate and the conversation In focusing on these musical discourses it becomes apparent that each work is the product of its composer s stylistic choices location intended performers and intended audience Instead of evolving in a strict and universal sequence the string quartet in the latter half of the eighteenth century was a complex genre with composers mixing and matching musical discourses as circumstances and their own creative impulses required **Beyond MIDI** Eleanor Selfridge-Field, 1997 The establishment of the Musical Instrument Digital Interface MIDI in the late 1980s allowed hobbyists and musicians to experiment with sound control in ways that previously had been possible only in research studios MIDI is now the most prevalent representation of music but what it represents is based on hardware control protocols for sound synthesis Programs that support sound input for graphics output necessarily span a gamut of representational categories What is most likely to be lost is any sense of the musical work Thus for those involved in pedagogy analysis simulation notation and music theory the nature of the representation matters a great deal An understanding of the data requirements of different applications is fundamental to the

creation of interchange codes The contributors to Beyond MIDI present a broad range of schemes illustrating a wide variety of approaches to music representation Generally each chapter describes the history and intended purposes of the code a description of the representation of the primary attributes of music pitch duration articulation ornamentation dynamics and timbre a description of the file organization some mention of existing data in the format resources for further information and at least one encoded example The book also shows how intended applications influence the kinds of musical information that are encoded Contributors David Bainbridge Ulf Berggren Roger D Boyle Donald Byrd David Cooper Edmund Correia Jr David Cottle Tim Crawford J Stephen Dydo Brent A Field Roger Firman John Gibson Cindy Grande Lippold Haken Thomas Hall David Halperin Philip Hazel Walter B Hewlett John Howard David Huron Werner Icking David Jaffe Bettye Krolick Max V Mathews Toshiaki Matsushima Steven R Newcomb Kia Chuan Ng Kjell E Nordli Sile O Modhrain Perry Roland Helmut Schaffrath Bill Schottstaedt Eleanor Selfridge Field Peer Sitter Donald Sloan Leland Smith Andranick Tanguiane Lynn M Trowbridge Frans Wiering *Wireless World* ,1969 Music, Books on Music, and Sound Recordings Library of Congress,1983 *Sonata for bassoon and piano* Barney Childs,1964 **Five little soundpieces** Barney Childs,1963 **The Travel and Tourism Index** ,1992 **Selected List of Recent Music Acquisitions** University of California, Santa Barbara.
