2015 Passenger Car and

2014 Concept Car Yearbook Automotive Engineering International, 2014-11-21 Every year global automakers introduce new

or significantly re engineered passenger vehicles with increasingly advanced technology intended to exceed consumer

expectations and satisfy increasingly stringent government regulations Some of these technologies are firsts of their kind and

start trends that other automakers soon follow with the innovations becoming adopted across the board The supply

community is also increasingly playing a more significant role in helping the original equipment manufacturers research

develop and introduce the latest engineering innovations that help bring competitive advantage for their automaker partners

Each year the editors of SAE's Automotive Engineering magazine publish many articles focused on the technology and

engineering innovations of new passenger and concept vehicles and these articles have been collected into this volume This

2015 Passenger Car and 2014 Concept Car Yearbook is the fourth in an ongoing series of books that provide yearly snapshots

of the latest and greatest technologies introduced by the automotive industry In this book we explore from an OEM and

supplier perspective the newest and most technically interesting production vehicles released for the 2015 model year In

addition we also have included a technology focused recap of the concept cars revealed during 2014 Readers will have in one

publication a complete overview of the key advances that took place over the course of the year from around the world Each

new model is profiled in its own chapter with one or more articles by the award winning editors and contributors of
