and the order of arrangement are essentially those of the seventh edition of Gray's New Manual of Botany. The drawings were made by the writer from specimens collected during the past few years. This bulletin has been prepared mainly for those who desire to become more familiar with our native and introduced trees but who do not have access to the larger publications on the subject. It will serve also as a basis for future forestry studies in the State. Popular interest in forestry which is sadly lacking in West Virginia at this time will be stimulated by a more general and more intimate acquaintance with the different kinds of trees. It is hoped that this bulletin will help to create the needed interest. If difficulty is found in determining the name of any tree specimens mailed to the West Virginia Agricultural Experiment Station Morgantown West Virginia will be named if possible without charge.
