Purchasing and Supply Chain Management Thomas E. Johnsen, Mickey Howard, Joe Miemczyk, 2014-10-24 This is the ground breaking new book for aspiring purchasing and supply chain leaders and anyone with a keen interest in this rapidly evolving field For too long business has focused on short term cost advantages through low cost country sourcing with little regard for the longer term implications of global sustainability As the first book to fully address the environmental social and economic challenges of how companies manage purchasing and supply chains it aims to inspire the development of current and future purchasing and supply chain leaders In addition to explaining the basic principles and processes of both purchasing and supply chain management the book evaluates how to develop strategic and sustainable purchasing and supply chain management A key message is that purchasing and supply chain management needs to focus on value creation rather than cost cutting This requires the development of completely new purchasing and supply chain models that involve closed loop supply structures supply chain transparency and collaboration with new stakeholders in traditional sourcing and supply chain processes Aimed at students educators and practitioners the book integrates sustainability into each chapter as a core element of purchasing and supply chain management Incorporating case studies from industry into each chapter the book strikes a balance between theoretical frameworks and guidelines for implementation in practice

Card-Based Control Systems for a Lean Work Design Matthias Thurer, Mark

Stevenson, Charles Protzman, 2017-07-27 Many shops have simplified their production control by using card based systems such as kanban and Constant Work in Process ConWIP Although these systems provide a simple and highly effective visual approach for controlling manufacturing and service operations all too many shops struggle with failed implementations or achieve results that fall Breaking from Taylorism Ulrich Jürgens, Thomas Malsch, Knuth Dohse, 1993 Examines the restructuring of work practices in the world automobile industry in the 1980s *Multiple Criteria Decision Making for Sustainable Development* Michalis Doumpos, Fernando A. F. Ferreira, Constantin Zopounidis, 2022-01-01 This book presents a rich collection of studies on the analysis of sustainable development from a multiple criteria decision making MCDM perspective written by some of the most prominent authors in the field of MCDM A The book constitutes a unique international reference guide to the analysis measurement and management of sustainability in a multidimensional decision analysis context Chiefly intended for academics and policymakers it reflects some of the latest methodological advances in decision making which are illustrated in real life applications to sustainability related topics in both the private and public sector
