Telecollaboration in Translator Education Mariusz Marczak, 2023-11-24 This volume provides a comprehensive treatment of telecollaboration as a learning mode in translator education surveying the state of the art exploring its distinctive challenges and affordances and outlining future directions in both theoretical and practical terms The book begins with an overview of telecollaboration and its rise in prominence in today's globalised world one in which

developments in technology have significantly impacted practices in professional translation and translator education. The volume highlights basic design types and assessment modes and their use in achieving competence based learning outcomes drawing on examples from seven telecollaboration projects. In incorporating real life research Marczak draws readers attention to not only the practical workings of different types of projects and their attendant challenges but also the opportunities for educators to diversify and optimize their instructional practices and for budding translators to build competence and better secure their future employability in the language service provision industry. This volume will be a valuable resource for students and researchers in translation studies particularly those with an interest in translator education and translation technology as well as stakeholders in the professional translation industry. The Routledge Handbook of Translation, Interpreting and Bilingualism Aline Ferreira, John W. Schwieter, 2023-01-31. Translation and interpreting can be seen as two special sub types of bilingual communication. The field of bilingualism from developmental cognitive and neuroscientific perspectives is highly relevant to Translation and Interpreting Studies. The Routledge Handbook of Translation Interpreting and Bilingualism is the first handbook to bring together the related yet disconnected fields of bilingualism and translation and interpreting studies. Edited by leading scholars and authored by a wide range of established authorities from around the world the Handbook is divided into six parts and encompasses theories and method the development of translator and interpreter competence and cognitive neuroscientific and social aspects. This is the essential guide to bilingualism for advanced students and researchers of Translation and Interpreting studies and key reading on translation and interpreting for those studying and researching bilingualism. **Positive Learning in the Age of**

Information Olga Zlatkin-Troitschanskaia, Gabriel Wittum, Andreas Dengel, 2017-12-15. While information and communication technology has a vast influence on our lives little is understood about its effects on the way we learn. In the Age of Information students consciously or not are learning in diverse formal and informal environments from a broad variety of sources with scientific knowledge competing against unfounded assertions and misinformation and biased data spreading through social and mass media. The Positive Learning in the Age of Information PLATO program illustrated by the contributions in this book unites outstanding and highly innovative expertise on the fundamentals of information processing and human learning to investigate a new paradigm of positive learning as a vital morally and ethically oriented approach which is of existential importance to maintaining the civilization standards of a modern society in the digital age.
