

## ASBESTOS

This warning may apply to any of the following components or any assembly containing one or more of these components: -

**Brake Shoes or Pads  
Clutch Friction Material  
Gaskets  
Insulators**

## SAFETY INSTRUCTIONS

- Operate if possible out of doors or in a well ventilated place.
- Preferably use hand tools or low speed tools equipped with an appropriate dust extraction facility.
- Dampen dust and place in a properly closed receptacle. Dispose of the closed receptacle safely.
- Never use an airline to blow dust from components

## TAMPERING WITH NOISE CONTROL SYSTEM PROHIBITED

Owners are warned that the law may prohibit:

- (a) The removal or rendering inoperative by any person other than for purposes of maintenance, repair or replacement, of any device or element of design incorporated into any new vehicle for the purpose of noise control prior to its sale or delivery to the ultimate purchaser or while it is in use; and
- (b) the use of the vehicle after such device or element of design has been removed or rendered inoperative by any person.

## REFERENCES

### References

References to the left-hand or right-hand side given in this manual are made when viewing the motorcycle from the rear.

Operations covered in this manual do not always include reference to testing the motorcycle after repair. It is essential that work is inspected and tested after completion and if necessary a road test of the motorcycle is carried out particularly where safety related items are concerned.

### Dimensions

The dimensions quoted are to design engineering specification with service limits where applicable.

During the period of running-in from new, certain adjustments may vary from the specification figures given in this manual. These will be reset by the Dealer at the After Sales Service, and thereafter should be maintained at the figures specified in this manual.

## REPAIRS AND REPLACEMENTS

Before removal and disassembly, thoroughly clean the motorcycle. Any dirt entering the engine or other parts will work as an abrasive and shorten the life of the motorcycle. Particular attention should be paid when installing a new part, that any dust or metal filings are cleared from the immediate area.

### Force

Common sense should dictate how much force is necessary in assembly and disassembly. If a part seems especially difficult to remove or install, stop and examine what may be causing the problem. Never lever a component as this will cause damage both to the component itself and to the surface being levered against.

Whenever tapping to aid removal of an item is necessary, tap lightly using a hide or plastic faced mallet.

# Triumph Tiger 1993 2001 Workshop Service Repair Manual

**John Haynes**

## **Triumph Tiger 1993 2001 Workshop Service Repair Manual:**

*Subject Guide to Books in Print*, 2001      **Cars & Parts**, 1980      **Road and Track**, 1979-03      **Old Car Value Guide**, 1977      **Road & Track**, 1978-03      *HM Triumph Tiger 800/800XC 2010-2019* Editors of Haynes Manuals, 2021-01-19
