Gallouj, F. Djellal, 2011-11-01 This book represents a significant step towards dealing with the lacuna constituted by the inadequacy of the literature on the services And as such it approaches its task from a variety of directions From the foreword by William J Baumol New York University US The Handbook of Innovation and Services is an exceptional volume Its contributors including Fa z Gallouj William Baumol Jean Gadrey and Pascal Petit are among the major thinkers in both the fields of the economics of services and the economics of innovation Selected topics include the cost disease services innovation in the global economy social innovation in the services and innovation and employment in services The book I am sure will become a standard reference

volume in both these fields in the ensuing years Edward Wolff New York University US This Handbook brings together 49 international specialists to address an issue of increasing importance for the world's post industrial economies innovation as it relates to services Contemporary economies have two fundamental characteristics Firstly they are service economies in as much as services account for more than 70 per cent of the wealth and jobs in most developed countries Secondly they are innovation economies as recent decades have seen an unprecedented development of scientific technological organisational and social innovations This Handbook expertly links these two major characteristics in order to investigate the role of innovation in services an issue that until now has been inadequately explored and one that poses many theoretical and operational challenges This comprehensive volume encompasses the views of eminent scholars from a range of disciplines including economics management sociology and geography and draws on a number of different analytical and methodological perspectives With its multi disciplinary approach this Handbook will be an invaluable reference source for academics and students in the fields of economics management and the geography of services and innovation Public authorities and managers in the service sector will also find this book fascinating
