The Krugersdorp Cult Killings Jana Marx,2020-09-01 Eleven murders over a period of four years sent shockwaves through the Krugersdorp community and made headlines nationwide Eventually these murders were connected to Cecilia Steyn and her cult Electus per Deum chosen by God Members of the cult were willing to do anything for Cecilia even if it meant committing murder The murderers are intelligent ordinary people a teacher a financial broker and a teenager who despite her involvement in the murders still managed to obtain six distinctions in matric and be accepted to medical school Their victims merely kept their appointments not knowing that their appointments were with death Who is Cecilia Steyn How can one person manipulate five others to commit murder and perjury on her behalf How did Satanism contribute to all of this How did inexperienced criminals manage to evade capture for so long Jana Marx answers these and other questions in this true crime account that led to one of the most sensational murder cases in the country's history Through interviews with those in the inner circle evidence given in court and police files covering a period of four years Marx attempts to answer the

public's questions and provide a view of the inner workings of such a cult *Letters From The Open Road (Vol. 1)* Sidharth Sharotri, 2023-01-05 From the completely juvenile yet brilliant mind of Sidharth Sharotri comes a compilation of his serious automobile journalism work which consisted of him driving posh cars and making up stories around them for newspapers. These highly technical read not at all technical articles first appeared in a weekly motoring page called Honk in Deccan Chronicle and Asian Age between 2013 and 2015 which this author was exclusively entrusted with. Letters from the Open Road does exactly what his newspaper articles did: make the reader giggle a little bit while making them wonder if they should chase their own childhood dreams Advances in Applied Human Modeling and Simulation Vincent G.

Duffy, 2012-07-09 An examination of the various types of human modeled technology. Advances in Applied Human Modeling and Simulation not only covers the type of models available but how they can be applied to solve specific problems. These models provide a representation of some human aspects that can be inserted into simulations or virtual environments and facilitate prediction of safety, satisfaction, usability, performance, and sustainability. Topics include Anthropometry and human functional data, Biomechanics, occupational safety, comfort and discomfort, Biometric authentications, Driving safety and human performance, Enhancing human capabilities through aids or training, Fuzzy systems and neural computing, Human behavior and risk assessment, modeling, Integrating software with humans and systems, International cooperation in education and engineering research, Intelligent agents in decision training, Intelligent data and text mining, Machine learning and human factors, Modeling physical aspects of work, Monitoring systems and human decision, Psychophysiological indicators of emotion, Resilience engineering and human reliability, Scenario based performance in distributed enterprises, Special populations, Sustainability, earth sciences and engineering, System of systems, architecting and engineering, Verification and validation, Virtual interactive design and assessment. The math and science provides a foundation for visualizations that can facilitate decision making by technical experts, management or those responsible for public policy. In considering a systems perspective and decisions that affect performance, these models provide opportunities for an expanded role of engineers and HF/E specialists to meet technical challenges worldwide. They can also be used to improve time to market, increase safety, and ultimately the effectiveness of an organization. The book focuses on applications of these newly developed models and predictive capabilities useful to human factors and ergonomics engineers, cognitive engineers, human computer interaction engineers, human performance modeling engineers, and students in related fields.
