

INTRODUCTION

Johnson 4HP outboard motors are designed and built for dependable high performance. To assure continued peak operation, it is important that every Johnson owner be able to receive skilled and thorough service for his motor. Customer satisfaction and profitable service operation depend on service "know-how" and training.

Read this manual carefully so that you are familiar with the service procedures - then keep it readily available as a reference book in your service department.

Always remember, each service job is a chance for you to maintain motor performance that will keep your customer happy to be a Johnson owner.

ARRANGEMENT OF MANUAL

This Service Manual includes the specific information you will need to service Johnson 4HP motors. All general procedures are covered in abbreviated form, mostly by reference to procedural illustrations. The specific procedures which apply only, or primarily, to this motor are covered in fully-illustrated, detailed, step-by-step instructions.

The General Service Information section will help you diagnose a malfunctioning motor. It includes specifications, tune-up procedures, and a Trouble Check Chart. Clearances and torque values are also included for quick reference during servicing operations. Each of the following sections, Fuel System, Ignition System, Power Head, Lower Unit, and Manual Starter, gives detailed instructions for disassembly, inspection, reassembly, and operating adjustments of the components. These procedures will help you service a specific system, or completely overhaul the 4HP Models.

PARTS CATALOG

The Johnson 1973 Parts Catalog contains exploded views illustrating the correct sequence of all parts as well as a complete listing of the parts for replacement. This catalog can be of considerable help as a reference during disassembly and reassembly.

SERVICE POLICY

Whether within or following the warranty period, Johnson Motors has a constant interest in its products.

It is Johnson's policy to assist dealers in building up their service knowledge and facilities so that they can give prompt, efficient service. The Johnson Service School, frequent Service Bulletins, and this Service Manual represent tangible efforts to give Johnson owners the best and most prompt service possible. This Service Manual covers all phases of servicing 4HP motors. However, new situations

sometimes arise in servicing a motor. If a service question does not appear to be answered in this manual, you are invited to write to the Service Department for additional help. Always be sure to give complete information, including motor model number and serial number. Write to:

Johnson Motors, Plant 3
701 Pershing Rd.
Waukegan, Illinois 60085
Attention: Service Department

Be sure that you are familiar with the Johnson Warranty. If you have any questions, write the Johnson Service Department.

SPECIAL SERVICE TOOLS

Johnson has specially-designed tools to simplify some of the disassembly and reassembly operations. These tools are illustrated in this Service Manual, in many cases in actual use. Refer to the Johnson Special Service Tool Catalog for a description and ordering instructions for these tools.

OUTBOARD MOTOR NOMENCLATURE

Sometimes the words "right" and "left" are very confusing when referring to the sides of an outboard motor. Therefore, the sides are referred to as STARBOARD or PORT sides. STARBOARD means on the right hand while facing the bow (FRONT) of the boat; PORT means left hand. See Figures 1-1 and 1-2.

Service required for Johnson 4HP motors is generally one of three kinds

1. **NORMAL CARE AND MAINTENANCE**, which includes putting a new motor into operation, storing motors, lubrication, and care under special operating conditions such as salt water and cold weather.
2. **OPERATING MALFUNCTIONS** due to improper motor mounting, propeller condition or size, boat condition, or the malfunction of some part of the motor. This includes motor tune-up procedures to keep the motor in prime operating condition.
3. **COMPLETE DISASSEMBLY** and overhaul, such as inspecting a motor that has been submerged or rebuilding trade-in units.

It is important to you as the service man to determine before disassembly just what the trouble is, and how to correct it quickly and with minimum expense to the owner. This section of the manual is designed to help you diagnose motor malfunctions and correct them.
