

To Use or Not to Use Modifier -25

Common clinical scenarios that demonstrate when modifier -25 is and is not appropriate.

A patient returns for a scheduled examination for neovascular age-related macular degeneration (AMD).

The patient received prior injections. The examination shows no evidence of complications from the previous treatments and it is determined that an additional injection is needed that day. Modifier -25 is appropriate in this situation.

A patient presents with recent vision loss in his left eye. Examination and imaging demonstrate active choroidal neovascularization (CNV) due to AMD.

The patient is treated with an intravitreal injection of an anti-VEGF drug. Modifier -25 is appropriate in this situation.

A patient who has received multiple intravitreal injections in her left eye to treat AMD returns to her specialist complaining of vision changes in her

right eye. Examination reveals progressive geographic atrophy in the right eye and active CNV in the left eye. The left eye is injected with an anti-VEGF drug. Modifier -25 is appropriate in this situation.

A patient is on a PRN treatment regimen for CNV in her left eye. The patient did not receive treatment at the last visit.

Today, active CNV is noted on examination and imaging. The patient's left eye is injected. Modifier -25 is appropriate in this situation.

A patient with bilateral CNV returns for follow-up. Examination and imaging confirms bilateral active CNV. The right eye is injected today. The patient returns in 3 days for injection of the left eye. Modifier -25 is appropriate for the right eye, but NOT when the patient returns for the previously determined injection in the left eye.

A patient returns for a previously scheduled injection in the left eye. Ocular examination confirms the need for the injection. Modifier -25 is NOT appropriate in this situation.

A patient on a treat-and-extend regimen returns 6 weeks after an injection in his right eye. The patient's left eye is examined and found to have high-risk dry AMD. His right eye is injected, and he is scheduled for another injection in 8 weeks. Modifier -25 is appropriate in this situation because the examination of the left eye is medically necessary and is a significant, separately identifiable service from the injection.

Elsevier

The Elsevier logo, which is a red circular emblem with a white stylized figure of a person standing under a tree, is positioned to the right of the Elsevier text.

Using Modifier 25 With Vaccinations:

Compliance for Coding, Billing & Reimbursement, 2nd Edition Duane C. Abbey, 2008-04-02 While the vast majority of providers never intend to commit fraud or file false claims complex procedures changing regulations and evolving technology make it nearly impossible to avoid billing errors For example if you play by HIPAA s rules a physician is a provider however Medicare requires that the same physician must be referred to as a supplier Even more troubling is the need to alter claims to meet specific requirements that may conflict with national standards Far from being a benign issue differing guidelines can lead to false claims with financial and even criminal implications Compliance for Coding Billing Reimbursement Second Edition A Systematic Approach to Developing a Comprehensive Program provides an organized way to deal with the complex coding billing and reimbursement CBR processes that seem to force providers to choose between being paid and being compliant Fully revised to account for recent changes and evolving terminology this unique and accessible resource covers statutorily based programs and contract based relationships as well as ways to efficiently handle those situations that do not involve formal relationships Based on 25 years of direct client consultation and drawing on teaching techniques developed in highly successful workshops Duane Abbey offers a logical approach to CBR compliance Designed to facilitate efficient reimbursements that don t run afoul of laws and regulations this resource Addresses the seven key elements promulgated by the OIG for any compliance program Discusses numerous types of compliance issues for all type of healthcare providers Offers access to online resources that provide continually updated information Cuts through the morass of terminology and acronyms with a comprehensive glossary Includes a CD ROM packed with regulations and information In addition to offering salient information illustrated by case studies Dr Abbey provides healthcare providers and administrators as well as consultants and attorneys with the mindset and attitude required to meet this very real challenge with savvy humor and perseverance
