Stealing The Future David Morris, 2025-11-11 When does a philosophy become a conspiracy Stealing the Future is the first book to tell the true and full story of Sam Bankman Fried and his historic crimes It chronicles the 11 billion FTX fraud with the detail and nuance of a financial fraud expert and cryptocurrency insider but unlike any book before it it also traces the ideas that enabled the crime Effective Altruism and related tendencies such as longtermism and transhumanism remain dangerously influential in today's Silicon Valley Despite Bankman Fried's pose as a cuddly liberal philanthropist they are now center stage in the global rise of the far right and also lie at the heart of OpenAI the tech darling that took FTX's place as the face of the future
