Walter Benjamin Selected Writings Volume 2 Part 1 1927 1930 Author Walter Benjamin Jun 2005:

J.M. Coetzee: Fictions of the Real Anthony Uhlmann, 2019-05-16 J M Coetzee has new things to say about this relation between the real and fictions of the real and while much has already been written about him these questions need to be more fully explored The contributions to this volume are drawn together by the idea of the hinge between the world whether understood in ontological bio ethical personal and interpersonal or socio political terms and fictional representations of it whether understood in epistemological ficto biographical formal or stylistic terms In this collection the question of understanding itself how we understand or imagine our place in the world is shown to be central to our conception of that world That is rather than beginning with forms developed in socio political understandings Coetzee s works ask us to consider what role fiction might play in relation to politics in relation to history in relation to ethics and our understanding of human agency and responsibility Coetzee has a profound interest in the methods through which we make sense of the contemporary world and our place in it and his approach appeals to readers of fiction critics and philosophers alike The central problems he deals with in his fiction are of the kind that confront people everywhere and so involve a translatability that allow the works to maintain relevance across cultures Added to this though his fiction makes us question the nature of understanding itself This book was originally published as a special issue of *Textual Practice* **Selected Writings:**

1927-1934 Walter Benjamin, Howard Eiland, Gary Smith, 1996 Comprising more than 65 pieces journal articles reviews extended essays sketches aphorisms and fragments this volume shows the range of Walter Benjamin s writing His topics here include poetry fiction drama history religion love violence morality and mythology **Contested Selves** Katja

Herges, Elisabeth Krimmer, 2021 Investigates the field of German life writing from Rahel Levin Varnhagen around 1800 to Carmen Sylva a century later from D blin Becher women s WWII diaries German Jewish memoirs and East German women s interview literature to the autofiction of Lena Gorelik *Adorno and Performance* W. Daddario, K. Gritzner, 2014-10-16

Adorno and Performance offers the first comprehensive examination of the vital role of performance within the philosophy of Theodor W Adorno Capacious in its ramifications for contemporary life the term performance here unlocks Adorno s dialectical thought process which aimed at overcoming the stultifying uniformity of instrumental reason *Selected*

Writings Walter Benjamin, 1996 Comprising more than 65 pieces journal articles reviews extended essays sketches aphorisms and fragments this volume shows the range of Walter Benjamin s writing His topics here include poetry fiction drama history religion love violence morality and mythology *Donald Creighton* Donald A. Wright, 2015-09-15 A member of the same

intellectual generation as Harold Innis Northrop Frye and George Grant Donald Creighton 1902 1979 was English Canada s first great historian The author of eleven books including *The Commercial Empire of the St Lawrence* and a two volume biography of John A Macdonald Creighton wrote history as if it had happened he said the day before yesterday And as a public intellectual he advised the prime minister of Canada the premier of Ontario and at least on one occasion the British

government Yet he was as Donald Wright shows also profoundly out of step with his times As the nation was re imagined along bilingual and later multicultural lines in the 1960s and 1970s Creighton defended a British definition of Canada at the same time as he began to fear that he would be remembered only as a pessimist a bigot and a violent Tory partisan Through his virtuoso research into Creighton s own voluminous papers Wright paints a sensitive portrait of a brilliant but difficult man Ultimately Donald Creighton captures the twentieth century transformation of English Canada through the life and times of one of its leading intellectuals

The Meanings of Violence Gavin Rae,Emma Ingala,2018-10-17 Violence has long been noted to be a fundamental aspect of the human condition Traditionally however philosophical discussions have tended to approach it through the lens of warfare and or limit it to physical forms This changed in the twentieth century as the nature and meaning of violence itself became a conceptual problem Guided by the contention that Walter Benjamin s famous 1921 Critique of Violence essay inaugurated this turn to an explicit questioning of violence this collection brings together an international array of scholars to engage with how subsequent thinkers Agamben Arendt Benjamin Butler Castoriadis Derrida Fanon Gramsci Merleau Ponty Sartre and Schmitt grappled with the meaning and place of violence The aim is not to reduce these multiple responses to a singular one but to highlight the heterogeneous ways in which the concept has been inquired into and the manifold meanings of it that have resulted To this end each chapter focuses on a different approach or thinker within twentieth and twenty first century European philosophy with many of them tackling the issue through the mediation of other topics and disciplines including biopolitics epistemology ethics culture law politics and psychoanalysis As such the volume will be an invaluable resource for those interested in Critical Theory Cultural Studies History of Ideas Philosophy Politics Political Theory Psychology and Sociology

Eva Hesse Briony Fer,Eva Hesse,2009 Throughout her career Eva Hesse produced a significant number of small experimental works which she renamed studiowork This title contains a comprehensive catalogue of the studiowork including many new works that have never before been seen in public

Constructivism in Central Europe Esther Levinger,2022-01-31 The book is a comparative study of the constructivist avant garde artists in Central Europe the Hungarian MA group in exile in Vienna the Blok group in Warsaw and the Czech Dev tsil association of artists in Prague The author examines the similarities and significant differences among them Contrary to often repeated theses the study reveals that the artists unremittingly sought new formulations for an initial set of formal and theoretical issues It also demonstrates that they persistently believed that their works of art prefigured a future socialist society The long awaited socialist states that came into being after World War II betrayed the artists
