Tree A New Vision Of The American Forest:

Tree James Balog, 2005-10 The format is more modest but the visual splendor is as huge as ever This miniature Tree offers James Balog's groundbreaking portraits in a smaller but equally beautiful format with three gatefolds Makes a great gift Acclaimed photographer James Balog's groundbreaking tree portraits now come in a miniature but equally gifty format This new edition preserves the sense of awe found in the original book with stunning looks at North America's most superlative trees the old the massive the tall in whatever landscape they remain Immense portraits of sequoias and redwoods as no human has ever viewed them are captured in thousands of tiny frames as the photographer rappels down a neighboring tree We see thoughtful portrayals of trees that have survived by sheer hardiness or luck standing poised on the edge of northern wilderness isolated on a golf course or pardoned by the mark of a forward thinking logger Three gatefolds display Balog's signature multi image works With accompanying essays by the photographer this pictographic volume truly delivers a new vision of American trees James Balog photographed 92 superlative specimens in novel ways But it is his full length images of the big guys that required every bit of Mr Balog's ingenuity The New York Times Here comes the sap a razzi James Balog goes to dizzying heights to take stunning photos of trees People magazine **Tree** Jim Balog, David Friend, 2009-03-03 James Balog explores the changing character of the American forest seeking out superlative trees the old the massive

The Face of the Earth SueEllen Campbell, 2011-08-22 This lively book sweeps across dramatic and varied terrains volcanoes and glaciers billabongs and canyons prairies and rain forests to explore how humans have made sense of our planet's marvelous landscapes In a rich weave of scientific cultural and personal stories The Face of the Earth examines mirages and satellite images swamp dwelling heroes and Tibetan nomads cave paintings and popular movies investigating how we live with the great shaping forces of nature from fire to changing climates and the intricacies of adaptation The book illuminates subjects as diverse as the literary life of hollow Earth theories the links between the Little Ice Age and Frankenstein's monster and the spiritual allure of deserts and their scarce waters Including vivid on the spot accounts by scientists and writers in Saudi Arabia Australia Alaska England the Rocky Mountains Antarctica and elsewhere The Face of the Earth charts the depth and complexity of our interdependence with the natural world *Making Kin with Trees* Solvejg Nitzke, 2025-09-30 This book analyzes how trees act as mediators of interspecies relationships in popular science writing and creative nonfiction Making Kin with Trees argues that trees emerge as agents of arboreal poetics shaping not only fictional but also material interactions Following how speculative care practices infuse scientific and poetic texts formatting practices of reading sensing knowing and communicating with trees while affirming both cultural and scientific meaning making processes This book shows how arboreal thinking connects and might ultimately require breaking down the barrier between fact and fiction human and plant onlooker and artwork This book will be of interest to audiences based in fields including environmental humanities science and technology studies and ecocriticism and everyone engaged in science communication

and interested in the relationship between scientific fact and narrative Trees in Paradise Jared Farmer, 2013-10-21 From roots to canopy a lush verdant history of the making of California California now has more trees than at any time since the late Pleistocene This green landscape however is not the work of nature It s the work of history In the years after the Gold Rush American settlers remade the California landscape harnessing nature to their vision of the good life Horticulturists boosters and civic reformers began to improve the bare brown countryside planting millions of trees to create groves wooded suburbs and landscaped cities They imported the blue green eucalypts whose tangy fragrance was thought to cure malaria They built the lucrative Orange Empire on the sweet juice and thick skin of the Washington navel an industrial fruit They lined their streets with graceful palms to announce that they were not in the Midwest anymore To the north the majestic coastal redwoods inspired awe and invited exploitation A resource in the state the durable heartwood of these timeless giants became infrastructure transformed by the saw teeth of American enterprise By 1900 timber firms owned the entire redwood forest by 1950 they had clear cut almost all of the old growth trees In time California s new landscape proved to be no paradise the eucalypts in the Berkeley hills exploded in fire the orange groves near Riverside froze on cold nights Los Angeles s palms harbored rats and dropped heavy fronds on the streets below Disease infestation and development all spelled decline for these nonnative evergreens In the north however a new forest of second growth redwood took root nurtured by protective laws and sustainable harvesting Today there are more California redwoods than there were a century ago Rich in character and story *Trees in Paradise* is a dazzling narrative that offers an insightful new perspective on the history of the Golden State and the American West *Trees & Forests of America* ,2008-10 Essential to the fabric of life trees and forests grace the continent from sheltering oaks near the edge of the Atlantic to towering redwoods along the Pacific coast Forests produce the oxygen we breathe They cool the earth in summer nurture wildlife of myriad forms and help alleviate the effects of global warming Not only useful and necessary but also strikingly beautiful forests may be the most beloved part of the American landscape In *Trees Forests of America* award winning author and photographer Tim Palmer has captured 200 exquisite images of wild forests in all their vitality complexity and artistry He shows New England with its brilliant maples in autumn Appalachian mountains suffused with green aspen groves enlivening the Rockies cottonwoods shading streams in the desert and rainforests that loom large with biological extravagance in the Northwest Camera in hand Palmer has found a spectacular array of natural wonders wherever native forests still grow In his writing he describes the lives of trees the ecological workings of forest the importance that these places have for all of us and the challenges facing woodlands and the people who care about them Unaltered digitally or by other means these pictures show forests as Tim Palmer found them at sunrise or sunset in the depths of winter storms and in the balmy comfort of summer on the beaches of Hawaii as well as the glaciated frontier of Alaska Seeking out the quintessential forest in each region and ever watchful for intimate details as well as the overarching view from treetop or mountaintop Palmer shows America s trees and forests as
