The Trickster, Magician & Grieving Man Glen A. Mazis,1993 The Masculinity Conspiracy Joseph Gelfer,2011-08-14
What if the biggest conspiracy in human history had gone completely unnoticed What if that conspiracy was responsible for some of the biggest problems the world faces today Wouldn't you want to know Wouldn't you want to do something about it Well guess what You can The Masculinity Conspiracy argues that nearly every assumption about masculinity in contemporary society is wrong The result is nothing short of exposing a worldwide conspiracy that has been preventing humanity from reaching its fullest potential Earthbodies Glen A. Mazis,2012-02-01 Earthbodies describes how our bodies are open circuits to a sensual magic and planetary care that when closed off leads to disastrous detours such as illness dis ease and toxicity In doing so it answers a variety of questions Can we understand our bodies without understanding how they are part of a rhythmic flow with the rest of the planet How can we decide how to treat the animals around us when we fail to realize the nature of our kinship with them Without hearing the voices of the earth rocks and ocean waves how can we dialogue with the planet or understand ourselves Why are we so fascinated with film versions of nightmarish ghouls and vampires How can celebrities impact more on our lives than our own families What kind of human connection can we expect from the Internet How is it that some of our adolescent boys shoot down their schoolmates Despite our apparent cynicism is our culture overly sentimental What kind of ethics would help us find a moral way to achieve an inclusive global community and cherish the environment **Wild Hunger** Bruce Wilshire,1999-10-27 Why is it that even amidst affluence and power our culture is plagued by a variety of addictions In this pioneering work Bruce Wilshire searches for answers by giving serious attention to our genetic legacy from our hunter gatherer ancestors as well as to the unique ways we adapt to our environment through the practice of science and the creation of art and cities The work considers remedies for specific addictions including drugs alcohol cigarettes and gambling suggesting that wilderness exploration in the arts myths and ceremonies can help us rediscover what it means to be human creatures Bringing together the insights of philosophy religion cultural anthropology behavioral biology and the vast socio medical literature on addiction Wilshire ingeniously explores the limits of our adaptive capacity and the costs of depleting the natural regenerative functions of the body **The Quest** ,1994 Yoga Journal ,1994-05 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to providing in depth thoughtful editorial on topics such as yoga food nutrition fitness wellness travel and fashion and beauty *The Tricker is History* Carter Thomas Meland,2002 *Book Review Digest* ,1996 *Disenfranchised Grief* Kenneth J. Doka,2002 This book focuses on the kind of grief that is not openly acknowledged socially validated or publicly mourned It addresses the unique psychological biological and sociological issues involved in disenfranchised grief The contributing authors explore the concept of disenfranchised grief help define and
