Trixie And Me Galactic Exploration Book :

Galactic Exploration Peter Cawdron,1900 Galactic Exploration is a compilation of four closely related stories following the exploration of the Milky Way by the star ships Serengeti Savannah and the Rift Valley These three generational space ships are manned by clones and form part of the ongoing search for intelligent extra terrestrial life With the Serengeti heading out above the plane of the Milky Way the Savannah exploring the outer reaches of the galaxy and the Rift Valley investigating possible alien signals within the galactic core this story examines the Rare Earth Hypothesis from a number of different angles This volume contains the novellas Serengeti Trixie Me Savannah War **Splattered Ink** Sarah E Whitney,2016-08-01 In depth and refreshingly readable *Splattered Ink* is a bold analysis of postfeminist gothic a literary genre that continues to jar readers reject happy endings and find powerful new ways to talk about violence against women Sarah E Whitney explores the genre s challenge to postfeminist assumptions of women s equality and empowerment The authors she examines Patricia Cornwell Jodi Picoult Susanna Moore Sapphire and Alice Sebold construct narratives around socially invisible and physically broken protagonists who directly experience consequences of women s ongoing disempowerment Their works ask readers to inhabit women s suffering and to face the uncomfortable all too denied fact that today s women must navigate lives fraught with risk Whitney s analysis places the authors within a female gothic tradition that has long given voice to women s fears of their own powerlessness But she also reveals the paradox that allows the genre to powerfully critique postfeminism s often sunshiney outlook while uneasily coexisting within the same universe
