Scrum team In 2008 she graduated with a Master s degree in ergonomics and has since then been applying her new skills to various projects at Orange Labs Lannion Mathilde Cosquer joined Orange Labs as an ergonomist after completing her PhD on the question of transparency of technical devices from the user s point of view She has taken part in the design and evaluation of numerous innovating services but over the past four years she has been more particularly involved in projects of interpersonal communication services *Networks and Telecommunications* Deuff,2013-05-21 Integrating User-Centred Design in Agile Development Gilbert Cockton,Marta Lárusdóttir,Peggy Gregory,Åsa Cajander,2016-09-30 This book examines the possibilities of incorporating elements of user centred design UCD such as user experience UX and usability with agile software development It explores the difficulties and problems inherent in integrating these two practices despite their relative similarities such as their emphasis on stakeholder collaboration Developed from a workshop held at NordiCHI in 2014 this edited volume brings together researchers from across the software development UCD and creative design fields to discuss the current state of the art Practical case studies of integrating UCD in Agile development across diverse contexts are presented whilst the different futures for UCD and other design practices in the context of agile software development are identified and explored Integrating User Centred Design in Agile Development will be ideal for researchers designers and academics who are interested in software development user centred design agile methodologies and related areas **Can User-centered Design Techniques be Effectively Incorporated Into Agile Software Development Processes?** Matthew Maunder,2007
