critique of American injury law The book approaches injury law as a symptom of a larger American injury culture rather than
as a tool of social justice or as a form of regulation In doing so it offers a new understanding of the problematic role that law
plays in constructing Americans' relations with the objects they consume Through lively historical analyses of consumer
products and workplace objects ranging from cigarettes to cheeseburgers and computer keyboards to airbags Lochlann Jain
lucidly illustrates the real limits of the product safety laws that seek to redress consumer and worker injury The book draws
from a wide range of materials to demonstrate that American law sets out injury as an exceptional state one that can be
redressed through imperfect systems of monetary compensation Injury demonstrates how laws are unable to accommodate
the ways in which physical differences among citizens are imposed by the physical objects of culture that distribute risk

differently among populations The book moves between detailed accounts of individual legal cases historical analyses of advertising product design regulation and legal history and a wide reading of cultural theory Drawing on an extensive knowledge of law and social theory this innovative book will be essential reading for anyone with an interest in design consumption and the politics of injury **Maximum PC** ,2008-04 Maximum PC is the magazine that every computer fanatic PC gamer or content creator must read Each and every issue is packed with punishing product reviews insightful and innovative how to stories and the illuminating technical articles that enthusiasts crave **Maximum PC** ,2006-09 Maximum PC is the magazine that every computer fanatic PC gamer or content creator must read Each and every issue is packed with punishing product reviews insightful and innovative how to stories and the illuminating technical articles that enthusiasts crave *Windows 7* William Stanek,2009-10-10 Covers all of the features and enhancements in complete detail along with specifics for configuring them
