Josef Leitmann

Utility Mapping And Record Keeping For Infrastructure Urban Management Programme:

Utility Mapping and Record Keeping for Infrastructure David Pickering, Jonathan M. Park, David H. Bannister, 1993 This discuss paper reviews recent developments in the field of urban infrastructure recording and mapping a number of issues that need to be addressed and some actions that could be taken to improve recordkeeping systems Although the emphasis is on map and records for utilities basic municipal infrastructure services particularly those with underground networks some aspects of the discussion apply to urban management information systems in general Adapt du r sum des auteurs *Urban Management Programme, 1997-2001* Urban Management Program, United Nations Human Settlements Programme, 2002

Strategic Options for Urban Infrastructure Management William F. Fox, 1994-01-01 Experience of the past decade confirms that the solution to infrastructure problems is not merely to expand capacity by making new investments Much more systematic changes must be undertaken if service delivery is to attain the standards necessary to improve quality of life and allow economic output to expand more rapidly This paper identifies several broad areas for reform and recommends a series of actions to attain effective service delivery Adapt du r sum de l auteur

Participation and Partnership in Urban Infrastructure Management Peter Schübeler, 1996-01-01 This paper describes and illustrates a range of participatory strategies to assist urban managers in expanding the role and effectiveness of user participation in the provision and operation and maintenance of infrastructure To demonstrate how participation has been effectively employed in various circumstances numerous case studies are cited Finally measures and steps are outlined that could be instrumental in realizing participatory strategies Adapt du r sum de l auteur

Urban Stormwater Management in Developing Countries J. Parkinson, O. Mark, 2005-09-30 The purpose of this book is to disseminate contemporary knowledge and practical experiences concerning problems and solutions related to urban hydrology and drainage Although the main focus is on developing countries the book draws from experiences in many other parts of the world Based upon numerous practical examples and case studies the book provides information to assist in the management planning and engineering design processes Urban Stormwater Management in Developing Countries covers a wide range of methods and approaches to improve the understanding and ability of local stakeholders to solve stormwater problems within the framework of integrated urban water management As well as structural interventions the book describes various non structural approaches for flood mitigation and pollution control This book encourages the reader to adopt an integrated approach towards stormwater management and considers the importance of institutional arrangements participation of local stakeholders in planning as well as aspects of financing and cost recovery This comprehensive and topical book Addresses the broad range of issues related to urban stormwater management with a specific focus on developing countries Covers the main aspects of planning design operation and maintenance of urban drainage systems as well as socio economic and institutional issues related to urban stormwater management Presents structural and non structural approaches for flood mitigation and pollution control

within an integrated water resource management framework Provides extensive examples and case studies of best practice
 Contents Urbanisation and urban hydrology Impacts of flooding on society Integrated framework for stormwater
 management Institutional structures and policies Planning for urban stormwater management Approaches to urban drainage
 system design Ecological approaches to urban drainage system design Applications of computer models Operational
 performance and maintenance Flood mitigation and response strategies Participation and partnerships Economics and
 financing Full Contents List 27KB Policy Programme Options for Urban Poverty Reduction Franz Vanderschueren,Emiel
 A. Wegelin,K. Wekwete,1996-01-01 This paper reviews the specific actions which municipalities and city governments may
 take in contributing to urban poverty reduction It highlights examples of issues options and constraints which urban
 government have to address in grappling with poverty and focuses on municipalities and other city level government entities
 as a critical institutional level on intervention particularly in addressing issues relating to service delivery Adapt du r sum des
 auteurs **Rapid Urban Environmental Assessment: Methodology and preliminary findings** Josef Leitmann,1994
 Urban Management Program Series Paper 14 A recent evaluation of urban research in developing countries noted that scant
 data are available on the urban environment as little research has been done on the topic This first volume in a two volume
 set describes the development of a three step evaluation process whereby data are collected and analyzed to support the
 involvement of stakeholders suggests future directions and improvements and summarizes results from use of the approach
 in selected cities The second of a two volume set see below contains tools that practitioners and researchers can apply
 directly in the field See also Volume 2 ISBN 0 8213 2791 7 Stock No 12791 *Decentralization and Its Implications for
 Urban Service Delivery* William Dillinger,1994 This paper reviews efforts to improve the efficiency and responsiveness of
 urban services delivery in developing countries It argues that failures in urban service delivery are not merely the result of a
 lack of technical knowledge on the part of local government staff but also reflect constraints and perverse incentives
 confronting local personnel and their political leadership and these in turn are often the inadvertent result of problems in the
 relationship between central and local government The report views the spread of decentralization as a potentially fortuitous
 phenomenon The decentralization now occurring is not a carefully designed sequence of reforms aimed at improving the
 efficiency of public service delivery it appears to be a reluctant and disorderly series of concessions by central governments
 attempting to maintain political stability Adapt du r sum de l auteur **Household Responses to Poverty and
 Vulnerability** Caroline O. N. Moser,Cathy McIlwaine,Jeremy Holland,1997 This research paper describes the main results
 from the community of Angyalfold in Budapest Hungary The research is concerned with the strategies adopted by the urban
 poor to reduce vulnerability and prevent impoverishment during periods of economic stress This type of study assists
 policymakers in designing effective locally based solutions that ensure the poor are themselves active agents of growth
 rather than passive recipients of compensatory measures Three features distinguish this study from other poverty studies a

micro level approach combining households and communities as the main units of analysis an unusually long period of observation for some communities and households and a comparative framework offering four cases with very different economic development levels and institutional contexts The study concludes with some priority recommendations for action 1 support households in their role as safety net 2 alleviate constraints on women's labor supply 3 ensure that social capital is not taken for granted 4 develop social policy that integrates human capital and social capital 5 pursue further research and 6 develop tools and indicators to strengthen the assets of the poor **Guiding cities** Babar Mumtaz, 2001
