Wills Eye Institute - Uveitis Sunir J. Garg, 2012-01-10 This text is part of the Color Atlas and Synopsis of Clinical Ophthalmology which was developed at Philadelphia's famed Wills Eye Institute. The beauty of this series is the powerful combination of illustrative photographs and a summary approach to the text. While the seven ophthalmic subspecialties in this series (Cornea, Retina, Glaucoma, Oculoplastics, Neuroophthalmology, Pediatrics, and Uveitis) employ varying levels of visual recognition, a relatively standard format for the text is used for all volumes. The goal of the series is to provide an up-to-date clinical overview of the major areas of ophthalmology for students, residents, and practitioners in all the healthcare professions. This book is intended to provide comprehensive ophthalmologists, ophthalmology residents, and retina and cornea fellows with a single volume, easily accessible resource covering all the major aspects of ocular inflammatory disease. It will also be useful for subspecialists who are looking for an up-to-date, concise review of the field. The book features more than 3750 full color illustrations throughout and a short, succinct format which includes Epidemiology and Etiology, History, Physical Examination, Differential Diagnosis, Laboratory and Special Examinations, Diagnosis, Prognosis, and Management.

Gems of Ophthalmology: Diseases of Uvea HV Nema, Nitin Nema, 2018-05-31 This book provides the latest information on the clinical work up, diagnosis, and management of uveitis. Beginning with an overview of diagnostic procedures for uveal infections, each of the following sections is dedicated to a different disorder, covering both common conditions and more complex, less common infections. Topics include intraocular tuberculosis, ocular syphilis, Lyme disease, ocular toxoplasmosis, white dot syndromes, Behcet's disease, and much more. The book concludes with discussion on recent advances in diagnosis and management of uveitis, biologicals in its treatment, advances in intravitreal therapeutics, and choroidal melanoma.
