Routledge Handbook of Evolutionary Economics Kurt Dopfer, Richard R Nelson, Jason Potts, Andreas Pyka, 2023-11-27 While dating from post Classical economists such as Thorstein Veblen and Joseph Schumpeter the inception of the modern field of evolutionary economics is usually dated to the early 1980s Broadly speaking evolutionary economics sees the economy as undergoing continual evolutionary change Evolutionary change indicates that these changes were not planned but rather were the result of innovations and selection processes These often involved winners and losers but most importantly they resulted in actors learning what was and was not working Evolutionary economics in contrast to mainstream economics emphasises the relevance of variables such as technology institutions decision rules routines or consumer preferences for explaining the complex evolutionary changes in the economy In so doing evolutionary economics significantly broadens the scope of economic analysis and sheds new light on key concepts and issues of the discipline This handbook draws on a stellar cast list of international contributors ranging from the founders of the field to the newest voices The volume explores the current state of the art in the field of evolutionary economics at the levels of the micro e g firms and households meso e g industries and institutions and macro e g economic policy structure and growth Overall the Routledge Handbook of Evolutionary Economics provides an excellent overview of current trends and issues in this rapidly developing field

The Handbook of Social Work and Social Development in Africa Mel Gray, 2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies This book focuses solely on the unique African context engaging with issues relating to social work and development more broadly thus enabling a deeper examination and more complex and nuanced picture to emerge Unlike most academic works this book highlights multiple practitioner voices with authors or co authors that have recently been or are currently practising social workers As an edited book it draws from both academic research as well as lived practice experience supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible Looking at case studies from Lesotho Botswana Kenya Zimbabwe Ethiopia Namibia Uganda Nigeria Kenya South Africa Rwanda Zambia and Tanzania and covering established areas of practice such as child protection working with older people working with people with disabilities mental health and mainstream services targeting women as well as emerging areas of developmental social work practice such as humanitarian assistance in post conflict situations work with immigrants and refugees and the training of community based workers this book takes a future oriented perspective that aims to move beyond well worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective
