Overlaid on this is a close-up, slightly blurred face of a woman with long, wavy brown hair and bright red lipstick. The title 'Alice!' is written in a large, red, cursive font across the bottom half of the poster. Above the title, the text 'Wer zum Teufel ist Alice?' is written in white. At the very top, the name 'Alexander Leonhard' is displayed in white.

Asian Histories and Heritages in Video Games Yowei Kang, Kenneth C. C. Yang, Michał Mochocki, Jakub Majewski, Paweł Schreiber, 2024-08-28 This book explores the representations of national Asian histories in digital games. Situated at the intersection of regional game studies and historical game studies, this book offers chapters on histories and heritages of Japan, China, Iran, Iraq, Taiwan, South Korea, Indonesia, Singapore, Turkey, and Russia. The volume looks beyond the diversity of the local histories depicted in games and the audience reception of these histories to show a diversity of approaches which can be used in examining historical games from postcolonialism to identity politics to heritage studies. It demonstrates various methodological approaches to historical regional game studies: case studies of nationally produced historical games that deal with local history; studies of media reception of history; heritage-themed games; text mining methods; studying attitudes expressed by players of such games; and educational perspectives on games in teaching cultural heritage. Through the lens of videogames, the authors explore how nations struggle with the legacies of war, colonialism, and religious strife that have been a part of nation building, but also how victimized cultures can survive, resist, and sometimes prevail. Appealing primarily to scholars in the fields of game studies, heritage studies, postcolonial criticism, and media studies, this book will be particularly useful for the subfields of historical game studies and postcolonial game studies.

War and Peace in the Taiwan Strait Scott L. Kastner, 2022-11-01 As tensions continue to rise between the People's Republic of China and Taiwan, numerous analysts and officials have warned of a growing risk of military conflict which could potentially draw in the United States. How worried should we be about a war in the Taiwan Strait? Scott L. Kastner offers a comprehensive analytical account of PRC-Taiwan relations that sheds new light on the prospects for cross-strait military conflict. He examines several key regional trends that have complex implications for stability, including deepening economic integration, the shifting balance of military power, uncertainty about the future of U.S. commitment, and domestic political changes in both the PRC and Taiwan. Kastner argues that the risks of conflict are real but should not be exaggerated. Several distinct pathways could lead to the breakout of hostilities, and the mechanisms that might allay one type of conflict do not necessarily apply to others; yet war is anything but inevitable. Although changes to the balance of power introduce risks, powerful mitigating factors remain in place, and there are plausible steps to reduce the likelihood of military conflict. Drawing on both international relations theory and close empirical analysis of regional trends, this book provides a vital perspective on how a war in the Taiwan Strait could occur and how one could be avoided.
