West Of Jesus Surfing Science And The Origins Of Belief

Steven Kotler

West Of Jesus Surfing Science And The Origins Of Belief:

West of Jesus Steven Kotler, 2007-06-01 The author of *The Angle Quickest for Flight* shares his spiritual quest in search of the ultimate sport of surfing in the wake of a devastating bout with Lyme disease detailing his three year surfing odyssey around the world in search of a mysterious legend about a mystical surfer with the power to control the weather Reprint

West of Jesus Steven Kotler, 2008-12-01 After spending two years in bed with Lyme disease Steven Kotler had lost everything his health his job his girl and he was beginning to suspect his mind Kotler not a religious man suddenly found himself drawn to the sport of surfing as if it were the cornerstone of a new faith Why he wondered when there was nothing left to believe in could he begin to believe in something as unlikely as surfing What was belief anyway How did it work in the body the brain our culture and human history With the help of everyone from rebel surfers to rocket scientists Kotler undertakes a three year globetrotting quest The results are a startling mix of big waves and bigger ideas a surfer's journey into the biological underpinnings of belief itself

Dark Green Religion Bron Raymond Taylor, 2010 A love of green may be a human universal Deepening the palette of green scholarship Bron Taylor proves remarkably to be both an encyclopedist and a visionary Jonathan Benthall author of *Returning to Religion Why a Secular Age is Haunted by Faith* This important book provides insight into how a profound sense of relation to nature offers many in the modern world a vehicle for attaining a spiritual wholeness akin to what has been historically associated with established religion In this sense *Dark Green Religion* offers both understanding and hope for a world struggling for meaning and purpose beyond the isolation of the material here and now Stephen Kellert Yale University School of Forestry and Environmental Studies In this thought provoking volume Bron Taylor explores the seemingly boundless efforts by human beings to understand the nature of life and our place in the universe Examining in depth the ways in which influential philosophers and naturalists have viewed this relationship Taylor contributes to the further development of thought in this critically important area where our depth of understanding will play a critical role in our survival Peter H Raven President Missouri Botanical Garden Carefully researched strongly argued originally conceived and very well executed this book is a vital contribution on a subject of immense religious political and environmental importance It's also a great read Roger S Gottlieb author of *A Greener Faith Religious Environmentalism and our Planet's Future* A fascinating analysis of our emotional and spiritual relationship to nature Whether you call it dark green religion or something else Bron Taylor takes us through our spiritual relationship with our planet its ecosystems and evolution in an enlightened and completely undogmatic manner Dr Claude Martin Former Director General World Wildlife Fund An excellent collection of guideposts for perplexed students and scholars about the relationships of nature religions spirituality animism pantheism deep ecology Gaia and land ethics and for the environmentalist seeking to make the world a better place through green religion as a social force Fikret Berkes author of *Sacred Ecology Traditional Ecological Knowledge and Resource Management* *Dark Green Religion* shows conclusively how nature has inspired a growing religious

movement on the planet contesting the long reign of many older faiths Taylor expertly guides us through an astonishing array of thinkers past and present who have embraced in part or whole the new religion I was thoroughly convinced that this movement has indeed become a major force on Earth with great potential consequences for our environmental ethics Donald Worster University of Kansas In this exceptionally interesting and informative book Bron Taylor has harvested the fruits of years of pioneering research in what amounts to a new field in religious studies the study of how religious spiritual themes show up in the work of people concerned about nature in many diverse ways Taylor persuasively argues that appreciation of nature's sacred or spiritual dimension both informs and motivates the work of individuals ranging from radical environmentalists and surfers to eco tourism leaders and museum curators I highly recommend this book for everyone interested learning more about the surprising extent to which religious spiritual influences many of those who work to protect to exhibit or to represent the natural world Michael E Zimmerman Director Center for Humanities and the Arts University of Colorado at Boulder

Sustainable Surfing Gregory Borne, Jess Ponting, 2017-03-16 Whilst being an ambiguous and contested concept sustainability has become one of the twenty first century's most pervasive ideas as humanity's increasing impact on the environment as well as increasing social and economic inequalities have local and global consequences Surfing is a globally recognised cultural phenomenon whose unique connection with nature and rapid expansion into a multibillion pound industry offers exciting synergies for exploring various dimensions of sustainability This book is the first to bring together the world's foremost experts on the themes of sustainability and surfing Drawing upon cutting edge theory and research this book offers multidisciplinary perspectives and methodological approaches on the social environmental and economic components of sustainable surfing Contributions provide unique discussions that bridge the gap between theory and practice exploring topics such as sustainable surf tourism surf econometrics surf activism surfing governance the surfing industry and technological advancements Each chapter produces in depth insights to provide foundational insights of the relationship between sustainability and surfing This book will appeal to multiple audiences in different disciplines and sectors Practitioners will benefit from the insights presented in this volume while both undergraduate and postgraduate students will find this volume an invaluable companion including those working in geography environmental studies sport sciences and leisure and tourism studies

Surfing about Music Timothy J. Cooley, 2014-01-02 Roth Family Foundation music in America imprint First printed page

Surfing Douglas G. Booth, 2011-02-18 This guide showcases the world of extreme surfing describing the unique culture associated with this daredevil's sport providing insights into what makes the top riders tick explaining the science of big waves and more The Pipeline in Oahu Hawaii Maverick's Point in northern California Ours near Sydney Australia All over the world extreme surfers risk severe injury or even death from riptides shark attacks and collisions with the seabed itself just to experience the ultimate high from tackling and triumphing over one of the most powerful forces on earth Surfing The Ultimate Guide

explains the culture of extreme surfing including the often violent locals only mentality and analyzes the dangers involved in riding the world's biggest and most ferocious waves The author examines the history of extreme surfing including past and contemporary heroes the science of giant waves the technical criteria for riding them and the future of big wave riding

American Sea Literature: Seascapes, Beach Narratives, and Underwater Explorations S. Yamashiro, 2014-07-31

Implementing a never before seen approach to sea literature American Sea Literature Seascapes Beach Narratives and Underwater Explorations explores the role of American maritime activities and their cultural representations in literature Differentiating between the terrestrial and oceanic as concepts Shin Yamashiro divides sea literature into three categories literature on the sea by the sea and beneath the sea Discussing both canonical works and new books on scuba diving deep sea explorations and surfing this fascinating study recognizes sea literature's unique influence on American history

Water, Creativity and Meaning Liz Roberts, Katherine Phillips, 2018-08-06 At a time of great turmoil and crisis

environmentally socially and politically water has emerged as a topic of huge global concern Moreover many argue that what is needed in order to change our relationship with the environment is a cultural paradigm shift To this end this volume brings together diverse approaches to exploring human relationships with the watery world and the other living things that rely upon it Through exploring multiple creative ways of engaging with water and people the volume adds to the current zeitgeist of writing about water by expanding the discussion about this vital substance and how as humans we relate to it Chapters focus on creative explorations and explorations of creativity in relation to developing these understandings including concepts such as hydrocitizenship and responses to drought and flooding Drawing on the in depth research and experience of arts practitioners including participatory artists as well as academics from a variety of fields including geography anthropology health studies and environmental humanities the book provides a rich and multidisciplinary perspective on water and creative ways of engaging and understanding human water relationships It represents a valuable source and inspiration for academics arts practitioners and those involved in environmental policy and governance

The World in the Curl Peter J. Westwick, Peter Neushul, 2013-07-23 Draws on decades of experience and the popular team taught courses at the University of California at Santa Barbara to trace the cultural political economic and environmental aspects of surfing while evaluating the diverse range of influences that have rendered the sport a billion dollar worldwide industry

The Rise of Superman Steven Kotler, 2014 An exploration of how extreme athletes break the limits of ultimate human performance and what we can learn from their mastery of the state of consciousness known as flow In this groundbreaking book New York Times bestselling author Steven Kotler decodes the mystery of ultimate human performance Drawing on over a decade of research and first hand interviews with dozens of top action and adventure sports athletes such as big wave legend Laird Hamilton big mountain snowboarder Jeremy Jones and skateboarding pioneer Danny Way Kotler explores the frontier science of flow an optimal state of consciousness where we perform and feel our best Building a bridge between the

extreme and the mainstream The Rise of Superman explains how these athletes are using flow to do the impossible and how we can use this information to radically accelerate our performance in our own lives At its core this is a book about profound possibility what is actually possible for our species and where if anywhere our limits lie

Theology and California Fred Sanders, Jason S. Sexton, 2016-02-17 Exploring California as a theological place this book renders critical engagement with significant Californian religious and theological phenomena and the inherent theological impulses within major Californian cultural icons Harnessing conceptual tools inherent to theology through theological reflection assessment and critique the chapters in this volume begin to ascertain the significance of various empirical data and that no other qualitative methodological Californian study has done Many universities are picking up on California literature as a theme that highlights a place of hope wonder and cultural innovation but have neglected the significance of theological instincts flowing through the Californian dynamic Californians Fred Sanders and Jason Sexton assemble leading voices and specialists both from within and without California for engagement with California s influential culture including leading theologians and cultural critics such as Richard J Mouw Paul Louis Metzger and Fred Sanders alongside leading specialists in Film studies and cultural critique theological anthropology missiology sociology and history

The Anthropology of Sport and Human Movement Robert R. Sands, Linda R. Sands, 2010-10-11 The evolution of the human species has always been closely tied to the relationship between biology and culture and the human condition is rooted in this fascinating intersection Sport games and competition serve as a nexus for humanity s innate fixation on movement and social activity and these activities have served throughout history to encourage the proliferation of human culture for any number of exclusive or inclusive motivations money fame health spirituality or social and cultural solidarity The study of anthropology as presented in Anthropology of Sport and Human Movement provides a scope that offers a critical and discerning perspective on the complex calculus involving human biological and cultural variation that produces human movement and performance Each chapter of this compelling collection resonates with the theme of a tightly woven relationship of biology and culture of evolutionary implications and contemporary biological and cultural expression

The Black Body Meri Nana-Ama Danquah, 2011-01-04 What does it mean to have or to love a black body Taking on the challenge of interpreting the black body s dramatic role in American culture are thirty black white and biracial contributors award winning actors artists writers and comedians including voices as varied as President Obama s inaugural poet Elizabeth Alexander actor and bestselling author Hill Harper political strategist Kimball Stroud television producer Joel Lipman former Saturday Night Live writer Anne Beatts and singer songwriter Jason Luckett Ranging from deeply serious to playful sometimes hilarious musings these essays explore myriad issues with wisdom and a deep sense of history Meri Nana Ama Danquah s unprecedented collection illuminates the diversity of identities and individual experiences that define the black body in our culture

The Devil's Dictionary Steven Kotler, 2022-04-19 New York Times bestselling author Steven Kotler s follow up to Last Tango in

Cyberspace a near future thriller about the evolution of empathy in the tradition of William Gibson and Neal Stephenson Hard to say exactly when the human species fractured Harder to say when this new talent arrived But Lion Zorn protagonist of Last Tango in Cyberspace is the first of his kind an empathy tracker an emotional forecaster with a felt sense for how culture evolves and the future arrives It s also a useful skill in today s competitive business market In The Devil s Dictionary when a routine em tracking job goes sideways and em trackers themselves start disappearing Lion finds himself not knowing who to trust in a life and death race to uncover the truth And when the trail leads to the world s first mega linkage a continent wide national park advertised as the best way to stave off environmental collapse and exotic animals unlike any on Earth start showing up Lion s quest for truth becomes a fight for the survival of the species Packed with intrigue and heart pounding action marked by unforgettable characters and vivid storytelling filled with science based brilliance and cult comic touches The Devil s Dictionary is Steven Kotler at his thrilling science fiction best Last Tango in Cyberspace Steven Kotler,2019-05-14 The New York Times bestselling author combines the paranoia of Philip K Dick with the social consciousness of Octavia Butler in this sci fi thriller San Francisco Book Review four stars They re known as em trackers humans with a sense of empathy so advanced it allows them to foresee the future Corporations pay them top dollar to spot cultural trends before they emerge Lion Zorn the first known em tracker has done especially well But he never expected Big Pharma to come calling In 2025 technology has made massive leaps forward leaps that can easily be exploited for ignoble ends Artic Pharmaceuticals has a new drug and a bad idea All they need now is a formula But to get it they need Lion Lion first knows something is wrong when he senses their hidden agenda Then he discovers a decapitated human head Trapped in a web of deception and paranoia Lion suddenly realizes that he is the one person capable of stopping a global disaster A *Small Furry Hope* Steven Kotler,2011-11-07 An extraordinary look at the world of dog rescue and what dogs can teach us about how to live and love **A Small Furry Prayer** Steven Kotler,2010-10-05 A look at the cult and culture of the dog rescue movement in America based on the personal experience of the owners of Rancho de Chihuahua dog sanctuary in New Mexico Research on Lyme Disease Peter van Nitch,2007 Lyme disease may affect the brain in many ways the most common of which is a disturbance in thinking Other symptoms that occur frequently include headaches mood swings irritability depression and marked fatigue This book describes important features and indications of this killer disease **Seed** ,2006 *Mindfulness in Surfing* Sam Bleakley,2026-03-03 Mindfulness and Surfing casts a fresh perspective on this popular sport and explores how riding the waves can be the ultimate meditation Engaging author Sam Bleakley takes us on a soulful journey across the tideline of his personal and philosophical travels Through lunar cycles and river surfing to the Taoism of nature he reveals an acute awareness of what the oceans can tell us about our place in the natural world Meditating on one of nature s greatest elements its salty swells flow and peaks he shares life lessons in mindfulness that will be relished by surfer and non surfer alike
