Carroll, 2007 West Point presents a unique visual history of an essential American institution Built directly into the granite above the Hudson River West Point began its military history during the Revolutionary War and continues today preparing officers for the U S Army The cadets appointed to the U S Military Academy march on hallowed ground privileged to take their place in the Long Gray Line among America's best and brightest **The Cold War** Stephen E. Ambrose, Caleb Carr, Thomas Fleming, Victor Davis Hanson, 2006-11-07 Even fifteen years after the end of the Cold War it is still hard to grasp that we no longer live under its immense specter For nearly half a century from the end of World War II to the early 1990s all world events hung in the balance of a simmering dispute between two of the greatest military powers in history Hundreds of millions of people held their collective breath as the United States and the Soviet Union two national ideological entities waged proxy wars to determine spheres of influence and millions of others perished in places like Korea Vietnam and Angola where this cold war flared hot Such a consideration of the Cold War as a military event with sociopolitical and economic overtones is the crux of this stellar collection of twenty six essays compiled and edited by Robert Cowley the longtime editor of MHQ The Quarterly Journal of Military History Befitting such a complex and far ranging period the volume's contributing writers cover myriad angles John Prados in The War Scare of 1983 shows just how close we were

to escalating a war of words into a nuclear holocaust Victor Davis Hanson offers *The Right Man* his pungent reassessment of the bellicose air power zealot Curtis LeMay as a man whose words were judged more critically than his actions The secret war also gets its due in George Feiffer's *The Berlin Tunnel* which details the charismatic C I A operative Big Bill Harvey's effort to tunnel under East Berlin and tap Soviet phone lines and the Soviets equally audacious reaction to the plan while *The Truth About Overflights* by R Cargill Hall sheds light on some of the Cold War's best kept secrets The often overlooked human cost of fighting the Cold War finds a clear voice in *MIA* by Marilyn Elkins the widow of a Navy airman who details the struggle to learn the truth about her husband Lt Frank C Elkins whose A 4 Skyhawk disappeared over Vietnam in 1966 In addition there are profiles of the war's front lines Dien Bien Phu the Cuban Missile Crisis the Bay of Pigs as well as of prominent military and civil leaders from both sides including Harry S Truman Nikita Khrushchev Dean Acheson Gen Douglas MacArthur Richard M Nixon Gen Vo Nguyen Giap and others Encompassing so many perspectives and events *The Cold War* succeeds at an impossible task illuminating and explaining the history of an undeclared shadow war that threatened the very existence of humankind *American Military History* Daniel K. Blewett, 2008-12-30 In this companion volume to his 1995 bibliography of the same title Daniel Blewett continues his foray into the vast literature of military studies As did its predecessor it covers land air and naval forces primarily but not exclusively from a U S perspective with the welcome emergence of small wars from publishing obscurity In addition to identifying relevant organizations and associations Blewett has gathered together the very best in chronologies bibliographies biographical dictionaries indexes journals abstracts glossaries and encyclopedias each accompanied by a brief descriptive annotation This work remains a pertinent addition to the general reference collections of public and academic libraries as well as special libraries government documents collections military and intelligence agency libraries and historical societies and museums

Against the Grain James Carson, 2015-12-15 Henry Martyn Lazelle 1832-1917 born in Enfield Massachusetts the son of a farmer orphaned at the age of four and raised by a succession of relatives and family friends was the only cadet in the history of the U S Military Academy to be suspended and sent back a year for poor grades and bad behavior and eventually return as Commandant of the Corps of Cadets After graduating from West Point in 1855 he scouted with Kit Carson was wounded by Apaches and spent nearly a year as a paroled prisoner of war at the outbreak of the Civil War Exchanged for a Confederate officer he took command of a Union cavalry regiment chasing Mosby's Rangers throughout northern Virginia The early days of Reconstruction brought him to the Carolinas Later he represented the U S at British Army maneuvers in India and commanded units and posts in the Far West and the Dakotas during the relocation and ravaging of the American Indian nations Due in part to an ingrained disposition to question the status quo Lazelle's service as a commander and senior staff officer was punctuated at times with contention and controversy In charge of the official records of the Civil War in Washington he was accused of falsifying records exonerated but dismissed short of tour As Commandant of Cadets at West

Point he was a key figure during the infamous court martial of Johnson Whittaker one of West Point's first African American cadets. Again he was relieved of duty after a bureaucratic battle with the Academy's Superintendent. Lazelle retired in 1894 as Colonel of the 18th U.S. Infantry at Fort Bliss, Texas, where his Army career had begun 38 years earlier. Along the way he authored articles on military strategy and tactics, took up spiritualism, and published two books on the relationship between science and theology.

What Ifs? of American History Robert Cowley, 2004-09-07 Did Eisenhower avoid a showdown with Stalin by not taking Berlin before the Soviets? What might have happened if JFK hadn't been assassinated? This new volume in the widely praised series presents fascinating what-if scenarios by such prominent historians as Robert Dallek, Caleb Carr, Antony Beevor, John Lukacs, Jay Winick, Thomas Fleming, Tom Wicker, Theodore Rabb, Victor David Hansen, Cecelia Holland, Andrew Roberts, Ted Morgan, George Feifer, Robert L. O'Connell, Lawrence Malkin, and John F. Stacks. Included are two essential bonus essays reprinted from the original New York Times bestseller *What If*: David McCullough imagines Washington's disastrous defeat at the Battle of Long Island, and James McPherson envisions Lee's successful invasion of the North in 1862.

The Great Divide Thomas Fleming, 2015-03-10 In the months after her husband's death, Martha Washington told several friends that the two worst days of her life were the day George died and the day Thomas Jefferson came to Mount Vernon to offer his condolences. What could elicit such a strong reaction from the nation's original first lady? Though history tends to cast the early years of America in a glow of camaraderie, there were in fact many conflicts among the Founding Fathers, none more important than the one between George Washington and Thomas Jefferson. The chief disagreement between these former friends centered on the highest, most original public office created by the Constitutional Convention: the presidency. They also argued violently about the nation's foreign policy, the role of merchants and farmers in a republic, and the durability of the union itself. At the root of all these disagreements were two sharply different visions for the nation's future. Acclaimed historian Thomas Fleming examines how the differing temperaments and leadership styles of Washington and Jefferson shaped two opposing views of the presidency and the nation. The clash between these two gifted men, both of whom cared deeply about the United States of America, profoundly influenced the next two centuries of America's history and resonates in the present day.

Building Leaders the West Point Way Joseph P. Franklin, 2007-05-06 Discover the ten principles that every aspiring leader should learn straight from the nation's most powerful leadership lab. Major General Joseph P. Franklin ret. believes almost everything that he is, as an adult, can be traced back to his days at West Point, where he was not only a cadet but an instructor, football coach, and eventually Commandant of Cadets. U.S. Military Academy graduates are found at the highest levels in every walk of life: military, education, business, medicine, law, and government. However, you don't have to graduate from the U.S. Military Academy to embrace its ideals or to benefit from the wisdom that is taught there. In *Building Leaders the West Point Way*, Franklin shares leadership principles including Duty, Honor, Faith, Courage, Perseverance. And more. *Building Leaders the West Point Way* uses examples drawn from Major

Franklin's personal experience to illustrate key principles of leadership that are within grasp of everyone. This simple and easy to understand resource will help anyone become a better leader.

Gettysburg's Lost Love Story: The Ill-Fated Romance of General John Reynolds and Kate Hewitt Jeffrey J. Harding, 2022. Union general John Reynolds was one of the most beloved and respected military leaders of the Civil War yet beyond the battlefield the captivating true story of his secret romance with Catherine Kate Mary Hewitt remains etched into his legacy. Clandestinely engaged before John marched off to war, the couple's love remained a secret. Kate made a poignant last promise, a commitment to enter into a religious life if her beloved were to be killed. Tragically, Reynolds lost his life leading troops into action during the opening phases of the Battle of Gettysburg. Within days, Kate was embraced by the Reynolds family and soon began to honor her promise of a religious life. Yet a few years later she seemed to disappear. Author Jeffrey J. Harding unveils new findings on Kate's life before and after John's death as he recounts Gettysburg's saga of star-crossed love. Page 4 of cover. *Cadets on Campus* John A. Coulter, 2017-03-24. Since the founding of the United States Military Academy at West Point in 1802, more than eight hundred military schools have existed in this country. The vast majority have closed; their doors have been absorbed into other educational institutions or otherwise faded away, but others soldier on, adapting to changing times and changing educational needs. While many individual institutions have had their histories written or their stories told, to date no single book has attempted to explore the full scope of the military school in American history. *Cadets on Campus* is the first book to cover the origin, history, and culture of the nation's military schools, secondary and collegiate, and this breadth of coverage will appeal to historians and alumni alike. Author John Alfred Coulter identifies several key figures who were pivotal to the formation of military education, including Sylvanus Thayer, the father of West Point, and Alden Partridge, the founder of the school later known as Norwich University, the first private military school in the country. He also reveals that military schools were present across the nation despite the conventional wisdom that most military schools, and indeed the culture that surrounds them, were limited to the South. Coulter addresses the shuttering of military schools in the era after the Vietnam War and then notes a curious resurgence of interest in military education since the turn of the century.

Army, 2001. **Handbook of Research on Character and Leadership Development in Military Schools** Ryan, Mark Patrick, Weekes, Timothy L., 2021-01-22. Military academies have served youth for more than a century with proud traditions of producing graduates who are scholars, leaders, and athletes who adhere to a code of honor and ethical principles as they take the knowledge, skills, and dispositions gained at those academies into higher education, the business world, military service, civic endeavors, and the broader workforce. There is a current gap and need for research that explores the various components of a K-20 military school, college education, and how those components successfully produce leaders of character for our military, civic, academic, and business worlds, both in the United States and abroad. *The Handbook of Research on Character and Leadership Development in Military Schools* synthesizes research on the impact of military academies by providing a singular

compendium of current academic studies on the graduates of military academies and the communities of which they enter after graduation The chapters will explore the academics leadership character development citizenship athletics and other dimensions of both global and national and both private and public military academies This book is ideal for current leaders staffs governing board members and alumni of military academies both in the United States and internationally along with policymakers government officials practitioners researchers academicians and students interested in the implications of character and leadership development on individuals enrolled in or graduated from military schools
